Abstract: The New Source Performance Standards (NSPS) for the Graphic Arts Industry (40 CFR part 60, subpart QQ) were proposed on October 28, 1980; promulgated on November 8, 1982; and most recently amended on April 9, 2004. These regulations apply to each publication rotogravure printing press (not including proof presses) commencing either construction, or modification, or reconstruction after the date of proposal. New facilities include those that commenced either construction, or modification, or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart QQ.

Form numbers: None.

Respondents/affected entities: Owners or operators of graphic arts facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQ).

Estimated number of respondents: 6 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 470 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$56,200 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is a decrease of 1,590 hours in the total estimated respondent burden compared

with the ICR currently approved by OMB. This decrease in burden is an adjustment based on a review of sources listed on the Enforcement Compliance History Online (ECHO) database and consultations with industry indicating that the estimated number of sources in this renewal should be lowered. The ECHO sources listed included 6 active respondents subject to subpart QQ. Additionally, consultations with Gravure Association of Americas identified two companies with operations using the publication rotogravure printing process, both of which owned facilities included in the ECHO list. Based on consultations, EPA's ECHO database, and comparisons with previous ICRs, the industry is currently declining. As a result, it is assumed no new respondents will be added over the next three years. Labor costs have also been adjusted to correct an error in the previous ICR's calculations resulting from managerial and technical labor rates being transposed and applied incorrectly to each other's labor hours.

Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–XXXX.

Title: Incarcerated People’s Communications Services (IPCS), 2023 Mandatory Data Collection, WC Docket Nos. 23–62, 12–375, DA 23–638.

Form Number(s): FCC Form 2303(a) and FCC Form 2303(b).

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 30 respondents; 30 responses.

Estimated Time per Response: 265 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in sections 1, 2, 4(i)–4(j), 5(c), 201(b), 218, 220, 225, 255, 276, 403, and 716 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i)–(j), 155(c), 201(b), 218, 220, 225, 255, 276, 403, and 716.

Total Annual Burden: 7,950 hours.

Total Annual Cost: No cost.

Needs and Uses: On March 17, 2023, the Commission released the *Incarcerated People’s Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23–62, 12–375, Notice of Proposed Rulemaking and Order, FCC 23–19, 88 FR 20804 (Notice of Proposed Rule Making) and 88 FR 19001 (Order), in which it began the process of implementing the Martha Wright-Reed Just and Reasonable Communications Act of 2022, Public Law 117–338, 136 Stat. 6156 (the Act). The Act expands the Commission’s statutory authority to encompass “any audio or video communications service used by inmates . . . regardless of technology used.” The Act also amends section 2(b) of the Communications Act of 1934, as amended, to make clear that the Commission’s jurisdiction extends to intrastate as well as interstate and international communications services used by incarcerated people.

The Act directs the Commission to “promulgate any regulations necessary

to implement” the statutory provisions, including its mandate that the Commission establish a “compensation plan” ensuring that all rates and charges for IPCS “are just and reasonable,” not earlier than 18 months and not later than 24 months after its January 5, 2023 enactment. The Act also requires the Commission to consider, as part of its implementation, the costs of “necessary” safety and security measures, as well as “differences in costs” based on facility size, or “other characteristics.” It allows the Commission to “use industry-wide average costs of telephone service and advanced communications services and the average costs of service of a communications service provider” in determining just and reasonable rates.

To ensure that it has the data needed to meet its substantive and procedural responsibilities under the Act, the Commission delegated to the Wireline Competition Bureau (WCB) and the Office of Economics and Analytics (OEA) (collectively, WCB and OEA) authority to “update and restructure” the Commission’s latest mandatory data collection, the Third Mandatory Data Collection (OMB Control No. 3060–1300, Inmate Calling Services (ICS) 2022 One-Time Mandatory Data Collection), “as appropriate in light of the requirements of the new statute.” This delegation requires WCB and OEA to collect “data on all incarcerated people’s communications services from all providers of those services now subject to” the Commission’s expanded ratemaking authority, including, but not limited to, requesting “more recent data for additional years not covered by the most recent data collection.”

Pursuant to their delegated authority, WCB and OEA drafted proposed instructions, a template, and a certification form for the proposed 2023 Mandatory Data Collection. See 2023 IPCS Mandatory Data Collection—Proposed Instructions, available for download at: <https://www.fcc.gov/document/2023-ipcs-mandatory-data-collection-proposed-instructions>. Under WCB and OEA’s proposals, IPCS providers would be required to submit the required data using a reporting template that would be filed through the Commission’s electronic comment filing system (ECFS). The proposed template included a Word document (Appendix A to the instructions) for responses requiring narrative information and Excel spreadsheets (Appendix B to the instructions) for responses that require specific numbers or information. IPCS providers would also be required to submit an audited financial statement or report for 2022, and a signed

certification of truthfulness, accuracy, and completeness. The proposed instructions, template, and certification form would simplify compliance with, and reduce the burden of, this data collection.

On April 28, 2023, WCB and OEA released the 2023 IPCS Public Notice seeking comment on all aspects of the proposed instructions, template, and certification form. See 2023 IPCS Mandatory Data Collection Public Notice, WC Docket Nos. 23–62, 12–375, DA 23–355 (WCB/OEA Apr. 28, 2023), 88 FR 27850 (May 3, 2023). After considering the comments and reply comments filed in response to the Public Notice and the 60-Day Notice, WCB and OEA released an Order on July 26, 2023, adopting the Mandatory Data Collection, and issuing the related instructions, template, and certification form. See 2023 IPCS Mandatory Data Collection Order, WC Docket Nos. 23–62, 12–375, DA 23–638 (WCB/OEA July 26, 2023), available at <https://www.fcc.gov/document/2023-ipcs-mandatory-data-collection-order>. This Order largely implements the proposals set forth in the Public Notice, with refinements and reevaluations responsive to record comments. Under the Order, IPCS providers will be required to submit data using a reporting template to be filed through ECFS in accordance with the instructions adopted by WCB and OEA, available for download at: <https://www.fcc.gov/document/2023-ipcs-mdc-instructions>. The template consists of a Word document (Appendix A to the instructions) for responses requiring narrative information, and Excel spreadsheets (Appendix B to instructions) for responses that require specific numbers and information. IPCS providers would also be required to submit an audited financial statement or report for 2022, and a signed certification of truthfulness, accuracy, and completeness. These documents will be submitted for approval by the Office of Management and Budget as FCC Form 2303(a) and FCC Form 2303(b).
