

EPA public comment policy; information about CBI, PBI, or multimedia submissions; and general guidance on making effective comments.

II. General Information

This document presents LDNR's supplement to its primacy application regarding Louisiana State Act No. 378. This act was signed into law and went into effect on June 14, 2023, during the comment period for EPA's proposed rulemaking, "State of Louisiana Underground Injection Control Program; Class VI Program Revision Application" (88 FR 28450, May 4, 2023). LDNR thereafter supplemented its Class VI primacy application to incorporate the new act, which revised portions of Louisiana law relevant to LDNR's Class VI primacy application. In LDNR's letter supplementing its application, LDNR stated that it found that Act 378 had no substantive impact on its pending application. The purpose of this document is to provide public notice and the opportunity for comment specific to LDNR's supplement to its primacy application regarding Louisiana State Act No. 378, which was not available for public review and comment at the time of the proposal. EPA is not reopening the overall comment period for the Agency's proposed approval of Louisiana's Class VI primacy application. EPA continues to review the comments received on the Agency's proposed approval and will address those comments and the comments submitted in response to this document in the final action.

Act 378 revised portions of Louisiana law relevant to LDNR's Class VI primacy application. For instance, it codified a parish notification requirement for permit applications for Class VI wells (and Class V wells related to geologic sequestration of carbon dioxide). It also codified Class VI quarterly and twenty-four-hour reporting requirements. It also revised Louisiana's long term liability provision in Louisiana Revised Statute (LA R.S.) 30:1109. As mentioned in the May 4, 2023, proposal, EPA is aware that stakeholders have raised concerns about this provision. EPA has reviewed Act 378, including its revisions to the long-term liability provision at LA R.S. 30:1109, and continues to propose approving Louisiana's application for Class VI primacy. EPA has determined that the application as supplemented continues to meet all applicable requirements for approval under SDWA section 1422.

Persons interested in the Class VI UIC program established by the State of Louisiana, and its proposed

incorporation under Section 1422 of the SDWA are encouraged to read the new information presented and respond to this document. Additionally, owners and operators, States, Tribes, and State co-regulators involved in geologic sequestration activities in Louisiana may also wish to comment on this publication. EPA is not reopening the overall comment period for the Agency's proposed approval of Louisiana's Class VI primacy application. EPA continues to review the comments received on the Agency's proposed rule approval and will address those comments and the comments submitted in response to this document in the final action.

Radhika Fox,

Assistant Administrator.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA-HQ-OLEM-2023-0299; EPA-HQ-OLEM-2023-0304; EPA-HQ-OLEM-2023-0382; FRL-11238-01-OLEM]

Proposed Deletion From the National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notice of intent.

SUMMARY: The Environmental Protection Agency (EPA) is issuing a Notice of Intent to delete one site and partially delete two sites from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the states, through their designated state agency, have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: Comments regarding this proposed action must be submitted on or before September 15, 2023.

ADDRESSES: EPA has established a docket for this action under the Docket Identification numbers included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. Submit your comments, identified by

the appropriate Docket ID number, by one of the following methods:

- <https://www.regulations.gov>.

Follow on-line instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

- *Email:* Table 2 in the **SUPPLEMENTARY INFORMATION** section of this document provides an email address to submit public comments for the proposed deletion action.

Instructions: Direct your comments to the Docket Identification number included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <https://www.regulations.gov> or email. The <https://www.regulations.gov> website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any

disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: EPA has established a docket for this action under the Docket Identification included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. All documents in the docket are listed on the <https://www.regulations.gov> website. The Final Close-Out Report (FCOR, for a full site deletion) or the Partial Deletion Justification (PDJ, for a partial site deletion) is the primary document which summarizes site information to support the deletion. It is typically written for a broad, non-technical audience and this document is included in the deletion docket for each of the sites in this rulemaking. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Docket materials are available through <https://www.regulations.gov> or at the corresponding Regional Records Center. Location, address, and phone number of the Regional Records Centers follows.

Regional Records Center

- Region 1 (CT, ME, MA, NH, RI, VT), U.S. EPA New England, SEMS Records and Information Center, 5 Post Office Square, Suite 100, Boston, MA 02109–3912; 617/918–1440.

- Region 2 (NJ, NY, PR, VI), U.S. EPA, 290 Broadway, New York, NY 10007–1866; 212/637–4308.

- Region 4 (AL, FL, GA, KY, MS, NC, SC, TN), U.S. EPA, 61 Forsyth Street, SW, Mail code 9T25, Atlanta, GA 30303.

- EPA Headquarters Docket Center Reading Room (deletion dockets for all states), William Jefferson Clinton (WJC) West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004, 202/566–1744.

EPA staff listed below in the **FOR FURTHER INFORMATION CONTACT** section may assist the public in answering inquiries about deleted sites, accessing deletion support documentation, and determining whether there are additional physical deletion dockets available.

FOR FURTHER INFORMATION CONTACT:

- Robert Lim, U.S. EPA Region 1 (CT, ME, MA, NH, RI, VT), lim.robert@epa.gov, 617/918–1392.

- Mabel Garcia, U.S. EPA Region 2 (NJ, NY, PR, VI), garcia.mabel@epa.gov, 212/637–4356.

- Leigh Lattimore, U.S. EPA Region 4 (AL, FL, GA, KY, MS, NC, SC, TN), lattimore.leigh@epa.gov, 404/562–8768.

- Charles Sands, U.S. EPA Headquarters, sands.charles@epa.gov, 202/566–1142.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. NPL Deletion Criteria
- III. Deletion Procedures
- IV. Basis for Intended Full Site or Partial Site Deletion

I. Introduction

EPA is issuing a proposed rule to delete one site and partially delete two sites from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL constitutes Appendix B of 40 CFR part 300 which is the NCP, which EPA created under section 105 of the CERCLA statute of 1980, as amended. EPA maintains the NPL as those sites that appear to present a significant risk to public health, welfare, or the environment. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund (Fund). These partial deletions are proposed in accordance with 40 CFR 300.425(e) and is consistent with the Notice of Policy Change: Partial Deletion of Sites Listed on the National Priorities List. 60 FR 55466, (November 1, 1995). As described in 40 CFR 300.425(e)(3) of the NCP, a site or portion of a site deleted from the NPL remains eligible for Fund-financed remedial action if future conditions warrant such actions.

EPA will accept comments on the proposal to delete or partially delete these sites for thirty (30) days after publication of this document in the **Federal Register**.

Section II of this document explains the criteria for deleting sites from the NPL. Section III of this document discusses procedures that EPA is using for this action. Section IV of this document discusses the site or portion of the site proposed for deletion and demonstrates how it meets the deletion criteria, including reference documents with the rationale and data principally relied upon by the EPA to determine that the Superfund response is complete.

II. NPL Deletion Criteria

The NCP establishes the criteria that EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate. In making such a determination pursuant to 40 CFR 300.425(e), EPA will consider, in consultation with the State, whether any of the following criteria have been met:

- i. Responsible parties or other persons have implemented all appropriate response actions required;
- ii. All appropriate Fund-financed response under CERCLA has been implemented, and no further response action by responsible parties is appropriate; or
- iii. The remedial investigation has shown that the release poses no significant threat to public health or the environment and, therefore, the taking of remedial measures is not appropriate.

Pursuant to CERCLA section 121(c) and the NCP, EPA conducts five-year reviews to ensure the continued protectiveness of remedial actions where hazardous substances, pollutants, or contaminants remain at a site above levels that allow for unlimited use and unrestricted exposure. EPA conducts such five-year reviews even if a site is deleted from the NPL. EPA may initiate further action to ensure continued protectiveness at a deleted site if new information becomes available that indicates it is appropriate. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system.

III. Deletion Procedures

The following procedures apply to the deletion or partial deletion of the sites in this proposed rule:

- (1) EPA consulted with the respective state before developing this Notice of Intent for deletion.

- (2) EPA has provided the state 30 working days for review of site deletion documents prior to publication of it today.

- (3) In accordance with the criteria discussed above, EPA has determined that no further response is appropriate.

- (4) The state, through their designated state agency, has concurred with the proposed deletion action.

- (5) Concurrently, with the publication of this Notice of Intent for deletion in the **Federal Register**, a notice is being published in a major local newspaper of general circulation near the site. The newspaper announces the 30-day public comment period concerning the proposed action for deletion.

(6) The EPA placed copies of documents supporting the proposed deletion in the deletion docket, made these items available for public inspection, and copying at the Regional Records Center identified above.

If comments are received within the 30-day comment period on this document, EPA will evaluate and respond accordingly to the comments before making a final decision to delete or partially delete the site. If necessary, EPA will prepare a Responsiveness Summary to address any significant public comments received. After the public comment period, if EPA determines it is still appropriate to delete or partially delete the site, the EPA will publish a final Notice of Deletion or Partial Deletion in the **Federal Register**. Public notices, public submissions and copies of the

Responsiveness Summary, if prepared, will be made available to interested parties and included in the site information repositories listed above.

Deletion of a site or a portion of a site from the NPL does not itself create, alter, or revoke any individual's rights or obligations. Deletion of a site or a portion of a site from the NPL does not in any way alter EPA's right to take enforcement actions, as appropriate. The NPL is designed primarily for informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

IV. Basis for Full Site or Partial Site Deletion

The site to be deleted or partially deleted from the NPL, the location of the site, and docket number with information including reference documents with the rationale and data principally relied upon by the EPA to determine that the Superfund response is complete are specified in Table 1. The NCP permits activities to occur at a deleted site, or that media or parcel of a partially deleted site, including operation and maintenance of the remedy, monitoring, and five-year reviews. These activities for the site are entered in Table 1, if applicable, under Footnote such that; 1 = site has continued operation and maintenance of the remedy, 2 = site receives continued monitoring, and 3 = site five-year reviews are conducted.

TABLE 1

Site name	City/County, State	Type	Docket No.	Footnote
Tyndall Air Force Base	Panama City, FL	Partial	EPA-HQ-OLEM-2023-0299 ..	1, 3
Universal Oil Products (Chemical Division)	East Rutherford, NJ	Partial	EPA-HQ-OLEM-2023-0304 ..	
Portsmouth Naval Shipyard	Kittery, ME	Full	EPA-HQ-OLEM-2023-0382 ..	1, 2, 3

Table 2 includes information concerning whether the full site is proposed for deletion from the NPL or a description of the area, media or

Operable Units (OUs) of the NPL site proposed for partial deletion from the NPL, and an email address to which public comments may be submitted if

the commenter does not comment using <https://www.regulations.gov>.

TABLE 2

Site name	Full site deletion (full) or media/parcels/description for partial deletion	E-mail address for public comments
Tyndall Air Force Base	OUs 10, 11 and parts of 15 and 25	jackson.brad@epa.gov .
Universal Oil Products (Chemical Division)	17 acres of soil from OU1	lapoma.jennifer@epa.gov .
Portsmouth Naval Shipyard	Full	lim.robert@epa.gov .

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability in the unlikely event that future conditions warrant further actions.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Natural resources, Oil pollution, Penalties,

Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Authority: 33 U.S.C. 1251 *et seq.*; 42 U.S.C. 9601–9657; E.O. 13626, 77 FR 56749, 3 CFR, 2013 Comp., p. 306; E.O. 12777, 56 FR 54757, 3 CFR, 1991 Comp., p. 351; E.O. 12580, 52 FR 2923, 3 CFR, 1987 Comp., p. 193.
