

Regulatory Flexibility Act

The Regulatory Flexibility Act (codified as amended at 5 U.S.C. 601–612) provides that whenever an agency promulgates a final rule after being required to publish a notice of proposed rulemaking under the APA (5 U.S.C. 553), the agency must prepare and make available a final regulatory flexibility analysis describing the impact of the rule on small entities or the head of the agency must certify that the rule will not have a significant economic impact on a substantial number of small entities. 5 U.S.C. 604–605. As indicated above, this final rule is not subject to the APA’s notice and comment requirements, and the Commission is not required to either conduct a regulatory flexibility analysis or certify that the final rule would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521) requires an

agency to seek and receive approval from the Office of Management and Budget (OMB) before collecting information from the public. 44 U.S.C. 3507. The agency must submit collections of information in rules to OMB in conjunction with the publication of the notice of proposed rulemaking. 5 CFR 1320.11. This final rule does not contain any collection of information, as defined by 44 U.S.C. 3502(3) and 5 CFR 1320.3(c).

Regulation Identifier Number

The Commission assigns a regulation identifier number (RIN) to each regulatory action listed in the Unified Agenda of Federal Regulatory and Deregulatory Actions (Unified Agenda). The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The public may use the RIN contained in the heading at the beginning of this document to find this action in the Unified Agenda, available at <http://www.reginfo.gov/public/do/eAgendaMain>.

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received final OMB approval on March 25, 2021, for the information collection requirements contained in the modifications to the Commission's rules in 47 CFR parts 1 and 4. Notice of that approval was published in the **Federal Register** on April 28, 2021 (see 86 FR 22360).

The foregoing notification is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The rules replaced a voluntary outage reporting system that was in place for submarine cable operators with a mandatory outage reporting requirement similar to the requirements places on other part 4 licensees identified in 47 CFR 4.3. For outages of a certain scope and duration, a submarine cable licensee must file a Notification, Interim Report, and Final Report in the manner prescribed in 47 CFR 4.15. The outage reports are submitted to the Commission through its Network Outage Reporting System (NORS). This mandatory reporting system provides the Commission greater visibility into the availability and resiliency of submarine cable systems.
