

minutes. A technology roles survey was also added that will be completed by the school or district technology coordinator and will require 10 minutes of burden time. These changes required increases to the total estimated burden between Amendment #3 (470,250 hours) and Amendment #4 (474,255 hours).

This revision provides minor updates Part A to detail these changes in the the burden table, as well as other small changes to bring Part A up to date. It also adds a revised draft of the school-based equipment survey, adds a brief survey for the school or district technology coordinator, and adds Spanish versions of both of those surveys. There is no change in the projected costs to the federal government.
