

deadline. Any person wishing to comment on Double E's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,¹ the Commission will aim to issue an order acting on the request within 45 days.² The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.³ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁴ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁵ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

SUPPLEMENTARY INFORMATION: This is a request for approval of a new collection. An agency may not conduct, or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 31, 2023, during a 60-day comment period (88 FR 16195). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Indoor AirPlus is aimed at forming public-private partnerships that help prevent various forms of indoor air pollution and their associated health risks. This ICR covers information collection activities under the EPA's newly revised Indoor AirPlus program. Indoor AirPlus is a voluntary certification labeling program that represents value-added marketability that home builders, verification companies, and oversight organizations can use to distinguish themselves from competition, while homeowners see a healthier and safer home with improved indoor air quality (IAQ) by requiring construction practices and product specifications that minimize exposure to airborne pollutants and contaminants.
