

Recommendation #3: The IMDCC member agencies should conduct and support efforts to develop and apply technologies (e.g., modeling or remote sensing) that support a more robust understanding of the status of marine debris, prevent marine debris, or address the impacts of marine debris.

Recommendation #4: The IMDCC member agencies should conduct and support efforts to monitor marine debris to better understand marine debris sources, fate, and transport.

Enforcement

Recommendation #1: The IMDCC member agencies, as appropriate, should issue notices of non-compliance to correct violations of federal law and either address violations through agency administrative processes or, when violations warrant, refer violations of federal law for civil or criminal enforcement action.

How Comments Will Be Addressed

NOAA's Marine Debris Program, on behalf of the IMDCC, invites comments, feedback, and recommendations on the draft recommendations. Following the comment period, the feedback provided will be reviewed and the recommendations will be updated as necessary. The final recommendations will be included in the Fiscal Year 2022–2023 IMDCC Biennial Report to Congress and in a stand-alone report. An appendix will be added to the stand-alone report describing how comments from the public comment period were incorporated into the recommendations. This report will be posted to <https://marinedebris.noaa.gov/our-work/IMDCC>.

The recommendations do not imply approval for any specific action, although they may inform future federal budget development. All activities included in the recommendations are subject to budgetary constraints, interagency processes, stakeholder input and other approvals, including the weighing of priorities and available resources by the Administration in formulating its annual budget and by Congress in legislating appropriations. In some cases, implementing the recommendations may require a sustained, multi-year effort by federal, state, tribal and community partners. The recommendations are not intended to, and do not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its

officers, employees, or agents, or any other person.

Director, Office of Response and Restoration, National Ocean Service, National Oceanic and Atmospheric Administration.
