**SUPPLEMENTARY INFORMATION:**

*Title:* 2024 Census of Horticultural Specialties.

*OMB Control Number:* 0535–0236.

*Type of Request:* Intent to Seek Reinstatement of an Information Collection.

*Abstract:* The National Agricultural Statistics Service (NASS) of the United States Department of Agriculture (USDA) will request approval from the Office of Management and Budget (OMB) for the 2024 Census of Horticultural Specialties survey to be conducted as a follow-on survey from the 2022 Census of Agriculture and is authorized by the Food, Conservation, and Energy Act of 2008 (title X—Horticulture and Organic Agriculture) as amended.

The 2024 Census of Horticultural Specialties will use as a sampling universe; every respondent on the 2022 Census of Agriculture who reported production and sales of \$10,000 or more of horticultural specialty crops, and is still in business in 2024. In addition, NASS also plans to contact all new operations that have begun producing horticultural specialty products since the completion of the 2022 Census of Agriculture. Data collection will begin around January 1, 2025, for production and sales data for 2024. A final report will be published around December 2025. Data will be published at both the US and State levels where possible.

*Authority:* The census of horticulture is required by law under the “Census of Agriculture Act of 1997,” Public Law 105–113, 7 U.S.C. 2204(g) as amended. These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of

1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, title III of Public Law 115–435, codified in 44 U.S.C. ch. 35. CIPSEA supports NASS’s pledge of confidentiality to all respondents and facilitates the agency’s efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA. NASS uses the information only for statistical purposes and publishes only tabulated total data.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 60 minutes per response.

*Respondents:* Producers of horticultural specialty crops.

*Estimated Number of Respondents:* 40,000.

*Estimated Total Annual Burden on Respondents:* 52,000 hours.

*Comments:* Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, March 4, 2024.

**SUPPLEMENTARY INFORMATION:**

*Title:* Agricultural Labor Survey.

*OMB Control Number:* 0535–0109.

*Expiration Date of Approval:* September 30, 2024.

*Type of Request:* Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and

national estimates of crop and livestock production, disposition, and prices. The Agricultural Labor Survey provides quarterly statistics on the number of agricultural workers, hours worked, and wage rates. Number of workers and hours worked are used to estimate agricultural productivity; wage rates are used in the administration of the H-2A Program and for setting Adverse Effect Wage Rates. Survey data are also used to carry out provisions of the Agricultural Adjustment Act. NASS intends to request that the survey be approved for another 3 years.

**Authority:** These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, title III of Public Law 115-435, codified in 44 U.S.C. ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA. NASS uses the information only for statistical purposes and publishes only tabulated total data.

**Estimate of Burden:** This information collection consists of three individual surveys. In April, NASS will collect data for the January and April quarters and in October, NASS will collect data for both the July and October quarters. Following these two surveys NASS will re-contact approximately 500 operators to conduct quality control surveys to help insure the quality of the data collected. NASS also plans to conduct some cognitive testing during this renewal period. The public reporting burden for this information collection is estimated to average 5 minutes for the quality control surveys and 30 minutes per response in April and October.

**Respondents:** Farms and businesses.

**Estimated Number of Respondents:** 18,000.

**Estimated Total Annual Burden on Respondents:** 21,000 hours.

### National Agricultural Statistics Service

#### Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

**AGENCY:** National Agricultural Statistics Service, USDA.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the List Sampling Frame Surveys. Revision to burden hours will be needed due to 1) The survey not being conducted in 2024 as the 2024 survey is conducted as part of the Census of Agriculture ICR (OMB Control Number 0535-0236). Annually, NASS obtains lists of farm and ranch operators from different crop and livestock organizations. Before adding these names to our list of active operators we will contact the individuals to determine if they qualify as a farm or ranch and then collect basic information from them on the size and

type of operation they have. These data will be used to eliminate any duplication we may have with names already on our list.

**DATES:** Comments on this notice must be received by May 6, 2024 to be assured of consideration.

*Title:* List Sampling Frame Surveys.

*OMB Control Number:* 0535-0140.

*Expiration Date of Approval:* May 31, 2025.

*Type of Request:* Intent to Seek Approval to Revise and Extend an Information Collection for a period of three years.

*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture. The List Sampling Frame Surveys are used to develop and maintain a complete list of possible farm and ranch operations. The goal is to produce for each State a relatively complete, current, and unduplicated list of names for statistical sampling for agricultural operation surveys and the Census of Agriculture. Data from these agricultural surveys are used by government agencies and educational institutions in planning, farm policy analysis, and program administration. More importantly, farmers and ranchers use NASS data to
