Notice of Intent to Prepare an Environmental Impact Statement for the Koi Nation's Proposed Shiloh Resort and Casino Project, Sonoma County, California

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA), as lead agency, intends to gather information necessary for preparing an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act (NEPA) in connection with the Koi Nation's (Nation) proposed Shiloh Resort and Casino Project adjacent to the Town of Windsor, Sonoma County, California for gaming and other purposes. Although a formal public scoping process has been

conducted and an Environmental Assessment (EA) circulated for this proposed Federal action, this notice also invites the public to identify potential issues, concerns, and alternatives to be considered in the EIS which have not previously been raised during this NEPA process.

DATES: To ensure consideration during the development of the EIS, written comments on the scope of the EIS should be sent as soon as possible and no later than 30 days after publication of this Notice of Intent (NOI) in the **Federal Register**.

ADDRESSES: You may mail written comments to Amy Dutschke, Regional Director, Bureau of Indian Affairs, Pacific Region, 2800 Cottage Way, Sacramento, California 95825. Please include your name, return address, and "NOI Comments, Koi Nation Fee-to-Trust and Casino Project" on the first page of your written comments. You may also submit comments through email to Chad Broussard, Environmental Protection Specialist, Bureau of Indian Affairs, at chad.broussard@bia.gov, using "NOI Comments, Koi Nation Fee-to-Trust and Casino Project" as the subject of your email.

SUPPLEMENTARY INFORMATION: The Koi Nation submitted a Fee-to-Trust application to the Bureau of Indian Affairs (BIA) requesting the placement of approximately 68.60 acres of fee land in trust by the United States as restored lands pursuant to 25 CFR part 292 upon which the Koi Nation would construct a casino resort. The Nation proposes to develop a casino-resort with ballroom/meeting space, event center, spa, and associated infrastructure. The proposed Fee-to-Trust property is located adjacent to the Town of Windsor, Sonoma County, California. The proposed trust property is assessor's parcels number 059-300-003. The purpose of the proposed action is to facilitate tribal self-sufficiency, self-determination, and economic development. The proposed action encompasses the various federal approvals that may be required to implement the Koi Nation's proposed project, including approval of the Koi Nation's land Fee-to-Trust application and Secretarial Determination pursuant to section 20 (b)(1)(B) of the Indian Gaming Regulatory Act (25 U.S.C. 2719 (b)(1)(B)(iii)).

The BIA previously prepared an EA that analyzed the potential environmental effects of the proposed action. The EA was made available for public comments and was the subject of a public meeting. Upon consideration of the public and agency comments received, the BIA has decided to prepare an EIS to further analyze the environmental effects which may result from the proposed action.

The EIS will identify and evaluate issues related to these approvals and will also evaluate a range of reasonable alternatives. Possible alternatives currently under consideration include: (1) a reduced-intensity casino alternative, (2) an alternate-use (non-gaming) alternative, and (3) a no-action alternative. The range of alternatives evaluated in the EIS may be expanded based on comments received during the scoping process. Areas of environmental concern preliminarily identified for analysis in the EIS include land resources; water resources; air quality; noise; biological resources; cultural and paleontological resources; transportation and circulation; land use; hazardous materials and hazards; public services and utilities; socioeconomic; environmental justice; visual resources; and cumulative, indirect, and growth-inducing effects.

The range of issues to be addressed in the EIS may be expanded or reduced based on comments received in response to this notice and in response to the previous publication of the EA. Additional information, including a map of the proposed trust property, is available at <https://shilohresortenvironmental.com> or by contacting the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

The NPS maintains the INTERIOR/NPS-2, Land Acquisition and Relocation Files, system of records. The mission of the NPS is to preserve the natural and cultural resources and values of the National Park system for the enjoyment, education, and inspiration of this and future generations. Land protection activities play a vital role in accomplishing these objectives within National Park units (often referred to as parks). The purpose of the system of records is to manage land acquisition, relocation, and realty management activities for lands or interests in lands associated with National Park units.

DOI is proposing to change the name of the system from INTERIOR/NPS-2, Land Acquisition and Relocation Files, to INTERIOR/NPS-2, Land Acquisition, Relocation, and Realty Management Records, to reflect the expanded scope of the system of records to include realty management activities. DOI is also updating the system location, category of records, category of individuals, records source categories, storage, retrieval, records retention and disposal, and safeguards; updating the authorities in accordance with the new Title 54 of the U.S. Code, which includes only laws applicable to NPS; updating the notification, records access and contesting procedures; adding new sections for security classification, purpose, and history of the system of records; and making general updates to the remaining sections to accurately reflect management of the system of records in accordance with the Office of Management and Budget (OMB) Circular A-108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

DOI is also changing the routine uses from a numeric to alphabetic list and is proposing to modify existing routine uses to provide clarity and transparency, and to reflect updates consistent with standard DOI routine

uses. Routine use A was modified to further clarify disclosures to the Department of Justice (DOJ) or other Federal agencies, when necessary, in relation to litigation or judicial hearings. Modified routine use B clarifies disclosures to a congressional office to respond to or resolve an individual's request made to that office. Modified routine use D allows DOI to refer matters to the appropriate Federal, State, local, or foreign agencies, or other public authority agencies responsible for investigating or prosecuting violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license. Modified routine use J and proposed routine use K allow DOI and NPS to share information with appropriate Federal agencies or entities when reasonably necessary to respond to a breach of personally identifiable information (PII) and to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government, or assist an agency in locating individuals affected by a breach in accordance with OMB Memorandum M-17-12, *Preparing for and Responding to a Breach of Personally Identifiable Information*. Routine use P was modified to remove the reference to condemnation proceedings since the condemnation process is covered by routine use A and add clarifying reference to the regulations of the Attorney General for review of title for Federal land acquisitions.

DOI is proposing new routine uses to facilitate sharing of information with agencies and organizations to promote the integrity of the records in the system or carry out a statutory responsibility of the DOI or Federal Government. Proposed routine use C facilitates sharing of information with the Executive Office of the President to resolve issues concerning individuals' records. Proposed routine use E allows NPS to share information with other Federal agencies to assist in the performance of their responsibility to ensure records are accurate and complete, and to respond to requests from individuals who are the subject of the records. Proposed routine use F facilitates sharing of information related to hiring, issuance of a security clearance, or a license, contract, grant or benefit. Proposed routine use G allows NPS to share information with the National Archives and Records Administration (NARA) to conduct records management inspections. Proposed routine use H allows NPS to share information with external entities, such as State, territorial and local
