

requirements under this OMB control number will be revoked. Until such time and in accordance with the PRA, we retain our currently approved burden estimate for this information collection.

*Description of Respondents:*  
Respondents include businesses engaged in the manufacture of foods

containing soy and other proteins that bear soy protein/CHD health claims. Respondents to the information collection are from the private sector (for-profit businesses).

In the **Federal Register** of January 23, 2024 (89 FR 4309), FDA published a 60-day notice requesting public comment

on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN<sup>1</sup>

21 CFR section; activity	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
101.82; Soy protein/CHD health claim .....	25	1	25	1	25

<sup>1</sup> There are no capital costs or operating and maintenance costs associated with this collection of information.

The records currently required to be retained under § 101.82(c)(2)(ii)(B) are the records, e.g., the formulation or recipe, that a manufacturer has and maintains as a normal course of its doing business. Thus, the burden to the food manufacturer is limited to assembling and retaining the records.

Based on a review of the information collection since our last request for OMB approval, we have made no adjustments to our burden estimate.
