

equipment; warranties; classified and unclassified software delivery and support; spare and repair parts, consumables, and accessories; publications and technical documentation; maintenance and maintenance support; personnel training and training equipment; U.S. Government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistical and program support.

(iv) *Military Department:* Air Force (NO–D–YAE, NO–D–YAG)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* July 15, 2022

\* As defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

*Norway—AIM–120 C–8 or D Advanced Medium-Range Air-to-Air Missiles*

The Government of Norway has requested to buy two hundred five (205) AIM–120 D-series Advanced Medium-Range Air-to-Air Missiles (AMRAAMs); sixty (60) AIM–120 C–8 or D-series AMRAAMs; and four (4) AIM–120D AMRAAM Guidance Sections. Also included are AIM–120 Control Sections, CATMs, and missile containers; weapon system support equipment; integration support and test equipment; transportation; repair and return support and equipment; warranties; classified and unclassified software delivery and support; spare and repair parts, consumables, and accessories; publications and technical documentation; maintenance and maintenance support; personnel training and training equipment; U.S. Government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistical and program support. The estimated total cost is \$950 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a North Atlantic Treaty Organization (NATO) ally that is an important force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and

future threats by providing advanced air-to-air capability for its F–35A fleet, enabling it to fulfill NATO missions and meet U.S. European Command's goal of combined air operations interoperability and standardization between Norwegian and U.S. forces. Norway will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company, Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22–42

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM–120C–8 and D-series AMRAAM are supersonic, air-launched, aerial intercept, guided missiles featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high- and low-flying and maneuvering targets. State-of-the-art technology is used in the missile to provide it with beyond-visual-range capability.

a. The increase in capability from the AIM–120C–8 to AIM–120D consists of a two-way data link, a more accurate navigation unit with Global Positioning System updates, improved high-off boresight capability, and enhanced aircraft-to-missile position handoff.

b. The AIM–120D features a quadrangle target detection device and an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection, and warhead detonation. The AIM–120D–3 is a form, fit, function refresh of the AIM–120D and is the next generation to be produced.

c. The potential sale will include Captive Air Training Missiles and AMRAAM Guidance Section spares. It

is the AMRAAM's advanced guidance section and mature seeker design that allow it to find targets quickly in the most challenging environments.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Norway.

July 15, 2022

The Honorable Nancy Pelosi  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 22-43, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Republic of Korea for defense articles and services estimated to cost \$130 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

James A. Hursch  
Director

Transmittal No. 22-43

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Republic of Korea

(ii) *Total Estimated Value:*

|                           |                      |
|---------------------------|----------------------|
| Major Defense Equipment * | \$ 44 million        |
| Other .....               | \$ 86 million        |
| <b>TOTAL .....</b>        | <b>\$130 million</b> |

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):  
Thirty-one (31) MK 54 All Up Round Lightweight Torpedoes

Non-MDE:  
Also included is Recoverable Exercise Torpedo (REXTORP); Storage and Issue (S&I) facility; air launch accessories for rotary wing; classified and unclassified torpedo spare parts; torpedo containers; torpedo support equipment to

include test equipment and tools; torpedo support services; classified and unclassified books and other publications; other technical assistance to include technical support, technical program management, infrastructure support, test equipment sustainment, exercise firing assistance, contract management, and initial Follow-on-Technical Support (FOTS); return and repair support; torpedo training; and other related elements of logistical and

program support.

(iv) *Military Department: Navy (KS–P–ANF)*

(v) *Prior Related Cases, if any: None*

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None*

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex*

(viii) *Date Report Delivered to Congress: July 15, 2022*

\* As defined in Section 47(6) of the Arms Export Control Act.

**POLICY JUSTIFICATION**

*Korea—MK 54 Lightweight Torpedoes*

The Republic of Korea (ROK) requests to buy thirty-one (31) MK 54 All Up Round Lightweight Torpedoes. Also included is REXTORP; S&I facility; air launch accessories for rotary wing; classified and unclassified torpedo spare parts; torpedo containers; torpedo support equipment to include test equipment and tools; torpedo support services; classified and unclassified books and other publications; other technical assistance to include technical support, technical program management, infrastructure support, test equipment sustainment, exercise firing assistance, contract management, and initial Follow-on-Technical Support FOTS; return and repair support; torpedo training; and other related elements of logistical and program support. The estimated total program cost is \$130 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve the ROK's capability to meet current and future threats by defending its homeland and U.S. personnel stationed there. The ROK will have no difficulty absorbing this equipment into its armed forces. Korea intends to utilize the MK 54 Lightweight Torpedoes on their MH-60R aircraft.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be determined upon contract award.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea; however, U.S. Government Engineering and Technical Services may be required on an interim basis for training and technical assistance.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22–43

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The MK 54 Torpedo is a conventional torpedo that can be launched from surface ships, rotary and fixed wing aircrafts. The MK 54 is an upgrade to the MK 46 Torpedo. The upgrade to the MK 54 entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank and propulsion system from the MK 46 torpedo are re-used in the MK 54 configuration with minor modifications.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Republic of Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

### Renewal of Department of Defense Federal Advisory Committees—Board of Visitors, Marine Corps University

**AGENCY:** Department of Defense (DoD).

**ACTION:** Federal Advisory Committee charter renewal.

**SUMMARY:** The DoD is publishing this notice to announce that it is renewing the charter for the Board of Visitors, Marine Corps University (BoV MCU).

**FOR FURTHER INFORMATION CONTACT:** Jim Freeman, DoD Advisory Committee Management Officer, 703–692–5952.

**SUPPLEMENTARY INFORMATION:** The BoV MCU charter is being renewed pursuant to title 10 United States Code (U.S.C.) section 8592(d) and in accordance with 5 U.S.C. chapter 10 (commonly known as the “Federal Advisory Committee Act” or “FACA”) and title 41 Code of Federal Regulations (CFR) section 102–3.50(a). The charter and contact information for the BoV MCU's Designated Federal Officer (DFO) are found at <https://www.facadatabase.gov/FACA/apex/FACAPublicAgencyNavigation>.

Pursuant to 10 U.S.C. 8592(d), the BoV MCU was established so as to meet all requirements of the appropriate regional academic accrediting association. Additionally, the BoV MCU provides the Secretary of Defense with independent advice and recommendations on matters pertaining to the Marine Corps University (MCU) and U.S. Marine Corps professional military education programs. The BoV MCU shall provide advice and recommendations on academic and administrative matters critical to the full accreditation and successful operation of the MCU. The BoV MCU shall be composed of at least seven and not more than 11 members who are eminent authorities in the fields of defense, academic administration, international affairs and/or leadership. Individual members will be appointed in accordance with DoD policy and procedures, and members will serve a term of service of one-to-four years with annual renewals.

One member, according to DoD policy and procedures, will be appointed as Chair of the BoV MCU. No member, unless approved according to DoD policy and procedures, may serve more than two consecutive terms of service on the BoV MCU, to include its subcommittees, or serve on more than two DoD Federal Advisory Committees at one time. Members of the BoV MCU who are not full-time or permanent part-time Federal officers or employees will be appointed as experts or consultants, pursuant to 5 U.S.C. 3109, to serve as special government employee members. BoV MCU members who are full-time or permanent part-time Federal officers or employees will be appointed, pursuant to 41 CFR 102–3.130(a), to serve as regular government employee members.
