The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206

of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: May 31, 2024.

Debbie-Anne A. Reese,

Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP16–116–004]

Texas LNG Brownsville LLC; Notice of Request for Extension of Time

Take notice that on May 24, 2024, Texas LNG Brownsville LLC (Texas LNG) requested that the Commission grant an extension of time, until November 22, 2029, to construct and place into service its proposed liquefied natural gas (LNG) terminal on the north side of the Brownsville Ship Channel (Project) located in Cameron County, Texas as authorized by the Commission in Docket No. CP16–116–000.¹ The Order required Texas LNG to complete construction of the Project and make it available for service within five years of the date of the Order, or by November 22, 2024.

Texas LNG states that the Project has been delayed due to extenuating circumstances outside of its control, specifically, litigation challenging the

Commission's underlying orders authorizing the Project and other permits for the Project. Specifically, Texas LNG states that on August 3, 2021, the D.C. Circuit remanded the Commission's authorization and rehearing orders back to the Commission to re-analyze the Project's impacts on environmental justice communities and to reconsider its determination of public interest under section 3 of the NGA.² On April 21, 2023, the Commission issued the Remand Order addressing the issues that the D.C. Circuit identified and affirming that the Project "is not inconsistent with the public interest."³

Additionally, Texas LNG states that it was forced to defend a challenge to the air permit issued by the Texas Commission on Environmental Quality. After an extended litigation process, on July 21, 2023, the appeals court rendered a decision in Texas LNG's favor.⁴ Texas LNG further affirms that it has worked diligently to secure and defend all necessary Federal authorizations to begin construction, in compliance with Environmental Condition No. 9 of the Order⁵ and completing the Project's permitting efforts required for a final investment decision.

Finally, Texas LNG asserts that it is making significant progress on the commercialization of its Project. Therefore, Texas LNG requests an extension of time until November 22, 2029, to complete the construction of the Project and place the facilities into service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Texas LNG's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on

requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,⁶ the Commission will aim to issue an order acting on the request within 45 days.⁷ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁸ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁹ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.¹⁰ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary.
