Agenda

Monday, June 24, 2024

The Council will begin this meeting with brief announcements, followed by reports on recent activities from the Council's Chair and Executive Director, the GARFO Regional Administrator, the NOAA Office of General Counsel, the Northeast Fisheries Science Center (NEFSC) Director, the Mid-Atlantic Fishery Management Council liaison, and representatives from the Atlantic States Marine Fisheries Commission (ASMFC), the U.S. Coast Guard, NOAA's Office of Law Enforcement, the Highly Migratory Species Advisory Panel, and the Advisory Committee to the U.S. Section of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The Council then will receive a brief report on the status of the On-Demand Fishing Gear Conflict Working Group's activities. As the last order of business for the day, the Council will hear from its Atlantic Herring Committee, which will: (1) provide a summary of public comments received during scoping meetings conducted for Amendment 10 to the Atlantic Herring Fishery Management Plan; and (2) enter into an initial discussion on specifications for the 2025, 2026, and 2027 fishing years for Atlantic herring.

Tuesday, June 25, 2024

The Council will begin the second day of its meeting by considering updates to its 2022–26 Research Priorities and determining a schedule for future updates. The Council's Scientific and Statistical Committee (SSC) will provide input on the research priorities. Next, the Council will receive an overview of the day's climate/ecosystem-related discussion items, which will begin with: (1) a presentation on projects funded under the Inflation Reduction Act (IRA), coupled with a broad overview of the initial draft workplan; and (2) a report from the May 2024 East Coast Climate Coordination Group meeting, including further details regarding IRA-funded climate/ecosystem projects. The Council then will receive a presentation on NOAA's Climate, Ecosystems, and Fisheries Initiative (CEFI) and discuss how this initiative can be integrated into fishery management.

Following the lunch break, the Council will receive a presentation on the 2024 State of the Ecosystem Report for New England, followed by SSC input on the report and overall discussion. Next, the Council will hear from its Risk Policy Working Group. The Council will review and provide feedback on a draft revised Risk Policy and provide further direction to the working group. The SSC also will provide input on the draft Risk Policy. Following the adjournment of official business, the Council will host a public outreach session to foster open lines of communication among Council members, staff, industry, and all meeting attendees. This event will be held in the same hotel as the meeting itself—the Hilton Garden Inn in Freeport, ME—in the lobby area.

Wednesday, June 26, 2024

The Council will lead off the third day of its meeting with an overarching discussion of ecosystem-based fishery management (EBFM) and ecosystem approaches to fishery management (EAFM). The Council will: (1) discuss the path forward to consider EAFM for incremental action across all Council fishery management plans; (2) consider the structure of its current Ecosystem-Based Fishery Management Committee and EBFM Plan Development Team; and (3) discuss alternatives to the current committee/PDT structure given other ongoing ecosystem/climate activities. The Council then will hear about fishery independent surveys and survey mitigation, beginning with an update on the Northeast Fisheries Science Center's fishery independent surveys. The Science Center's update will cover: (1)
