II. Discussion

On June 3, 2024, PFNW, Inc. submitted an application to the NRC for a license to export treated radioactive waste of Italian origin. The source of the waste is the European Commission’s Joint Research Centre (JRC), located in Ispra, Italy. PFNW, Inc., intends to

receive shipment of incoming waste consisting of liquid, solids, contaminated personal protective equipment, paper, plastic, glass, and combustible waste generated by the research projects at the JRC facility. PFNW will treat the waste by thermal processing, stabilization, and solidification. Residual ash and noncombustible metal would then be exported back to Italy for disposal. Resultant contaminants to be exported will include nickel-63 (Ni-63), carbon-14 (C-14), cesium-137 (Cs-137), cobalt-60 (Co-60), technetium-99 (Tc-99), strontium-90 (Sr-90), americium-241 (Am-241), curium-244 (Cu-144), plutonium (Pu) and uranium-238 (U-238) in the form of residual ash and residual metal or non-combustible material, not to exceed 0.70 terabecquerels (TBq). PFNW, Inc. requests an expiration date of December 31, 2036.

In accordance with paragraph 110.70(b) of Title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the receipt of the application; providing the opportunity to submit written comments concerning the application; and providing the opportunity to request a hearing or petition for leave to intervene, for a period of 30 days after publication of this notice in the **Federal Register**.

A hearing request or petition for leave to intervene must include the information specified in 10 CFR 110.82(b). Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner in

accordance with 10 CFR 110.89(a), either by delivery, by mail, or filed with the NRC electronically in accordance with the NRC’s E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). Detailed guidance on electronic submissions is located in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056) and on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.
