Deepwater Horizon Natural Resource Damage Assessment Alabama Trustee Implementation Group Final Supplemental Restoration Plan II and Environmental Assessment: Marine Mammals, and Finding of No Significant Impact

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: The Deepwater Horizon (DWH) natural resource trustees for the Alabama Trustee Implementation Group (TIG) have prepared the Final Supplemental Restoration Plan II and Environmental Assessment: Marine Mammals (RPII/EA) and Finding of No Significant Impact. The Final Supplemental RPII/EA evaluates the use of additional funds from the Marine Mammals Restoration Type to extend the implementation of one or more projects currently underway in the Alabama Restoration Area to continue the Alabama TIG's efforts to restore for injuries to marine mammals impacted by the DWH oil spill. The Final Supplemental RPII/EA evaluates two restoration alternatives including consideration of the criteria set forth in the OPA natural resource damage assessment (NRDA) regulations, and an analysis under National Environmental Policy Act (NEPA) implementing regulations. A No Action Alternative is also evaluated pursuant to the NEPA. In the Final Supplemental RPII/EA the Alabama TIG selects the preferred alternative for implementation. The total estimated cost to implement the Alabama TIG's Preferred Alternative—an extension of the Enhancing Capacity for the Alabama Marine Mammal Stranding Network Project—is \$1,881,237. This action allocates the Alabama TIG's remaining Marine Mammals restoration funds.
