

group meeting covering industry-based trawl surveys, including contingency plans for the *NOAA Ship Henry B. Bigelow*, as well as restrictor rope and offshore wind issues. Following the adjournment of official business, the Council will host a public outreach session to foster open lines of communication among Council members, staff, industry, and all meeting attendees. This event will be held in the same hotel as the meeting itself—the Beauport Hotel in Gloucester, MA.

Wednesday, September 25, 2024

The Council will begin the second day of its meeting with a report from its Risk Policy Working Group. The Council is scheduled to approve a revised Risk Policy statement and concept at this meeting. The Northeast Fisheries Science Center then will provide an overview of the June 2024 Management Track Stock Assessments for Atlantic herring, four Atlantic cod stock units, Georges Bank yellowtail flounder, black sea bass, surfclams, butterfish, and tilefish.

Following the lunch break, the Scientific and Statistical Committee (SSC) chair will provide the SSC's overfishing limit (OFL) and acceptable biological catch (ABC) recommendations for Atlantic herring, the four new Atlantic cod stock units, and Georges Bank yellowtail flounder. The report also will cover the SSC's review of methods for apportioning the biomass of Georges Bank cod and Georges Bank haddock into the Eastern Georges Bank Management Area. The Groundfish Committee report will follow with four items. The Council first will take final action on Amendment 25, which was developed to incorporate the four new cod stock units into the Northeast Multispecies (Groundfish) Fishery Management Plan. Then, the Council will receive a progress report on Framework Adjustment 69, which is an action to set specifications for several groundfish stocks for fishing years 2025–2027, U.S./Canada total allowable catches (TACs) for shared resources on Georges Bank for 2025–2026, incorporate revisions to flatfish sub-annual catch limits (sub-ACLs) and accountability measures (AMs), and address other measures. The Council next will receive updates on its Atlantic Cod Management Transition Plan and 2024 groundfish work priorities before adjourning for the day.

Thursday, June 26, 2024

The Council will lead off the third day of its meeting with the Atlantic Herring Committee report. The Council

will either take final action on 2025–2027 specifications for the Atlantic herring fishery or provide direction on the development of additional measures, which may include the potential initiation of a framework adjustment or consideration of in-season adjustments. A report from the Council's On-Demand Fishing Gear Conflict Working Group will follow. This report contains three components: (1) a GARFO update on the status of Atlantic Large Whale Take Reduction Plan modifications; (2) a NEFSC summary of on-demand fishing gear trials; and (3) Council review and discussion of the On-Demand Fishing Gear Conflict Working Group's input on its terms of reference, as well as a gear marking/gear interaction white paper and possible regulatory and management measures.

Following the lunch break, the Council will discuss ecosystem, climate, and Inflation Reduction Act (IRA) initiatives, which will cover: (1) a report on the establishment of the Council's new Climate and Ecosystem Steering Committee and a decision on the status of the Council's existing Ecosystem-Based Fishery Management Committee (EBFM) and EBFM Plan Development Team; (2) a report on the August 2024 Climate, Ecosystems, and Fisheries Initiative coordination meeting, which was hosted by the East Coast Climate Coordination Group; and (3) an update on the status of the Council's IRA-funded projects. The Council then will engage in its initial discussion on 2025 Council Priorities before closing out the meeting with other business.

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

SUMMARY: In accordance with the Privacy Act of 1974, the Consumer Financial Protection Bureau (CFPB) proposes to modify, rename, and reissue a current Privacy Act System of Records titled “CFPB.002—Depository Institution Supervision Database.” In the course of its supervisory work, the CFPB collects, uses, and maintains information on covered individuals associated with depository institutions (e.g., banks, savings associations, credit unions) and non-depository institutions (herein collectively referred to as supervised institutions), and their affiliates and service providers subject to the authority of the CFPB. This SORN

addresses information collected through the CFPB's supervisory and examination authorities under Federal consumer financial law. The CFPB is updating the name of this system of records and expanding the scope of the categories of individuals and records to account for the incorporation of information collected and maintained under another system of records, "CFPB.003—Non-Depository Supervision Database." Upon publication of this modified System of Records Notice (SORN), the CFPB.003—Non-Depository Supervision Database SORN will be rescinded.

DATES: Comments must be received no later than October 9, 2024. The new system of records will be effective October 9, 2024 unless the comments received result in a contrary determination.

ADDRESSES: You may submit comments, identified by the title and docket number (see above Docket No. CFPB–2024–0042), by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

Supervision Database," to "CFPB.002—Supervision and Examination Records." The CFPB update to CFPB.002—Depository Institution Supervision Database, now CFPB.002—Supervision and Examination Records, includes several changes.

First, the system of records is being renamed to account for the incorporation of information collected and maintained under another system of records titled, "CFPB.003—Non-Depository Supervision Database," and better align with the purpose(s) of the system(s). "CFPB.003—Non-Depository Supervision Database" will be rescinded under separate notice.

Some items in these sections have been reorganized and edited to more clearly identify the individuals whose records may be present in this system of records, including contact information for Federal, State, local and other government regulators associated with an action or matter.

Finally, the CFPB will be making non-substantive revisions to this SORN to align with the Office of Management and Budget's recommended model in Circular A–108, appendix II. The report of the revised system of records has been submitted to the Committee on Oversight and Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Office of Management and Budget (OMB), in accordance with to OMB Circular A–108, "Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act" (Dec. 2016), and the Privacy Act of 1974, 5 U.S.C. 552a(r).

I. Background

Congress enacted the Water Infrastructure Finance and Innovation Act (WIFIA) as part of the Water Resources Reform and Development Act of 2014 (WRRDA). Codified at 33 U.S.C. 3901-3915, WIFIA authorizes a Federal credit program for water infrastructure projects to be administered by EPA. WIFIA authorizes EPA to provide Federal credit assistance in the form of secured (direct) loans or loan guarantees for eligible water infrastructure projects.

Congress amended WIFIA in America's Water Infrastructure Act of 2018 (AWIA) to authorize Federal credit assistance exclusively for state infrastructure financing authority borrowers.

The WIFIA program's mission is to accelerate investment in our nation's water, wastewater, and stormwater infrastructure by providing long-term, low-cost, supplemental credit assistance under customized terms to creditworthy water infrastructure projects of national and regional significance. Additionally, the WIFIA program is implementing five key Administration priorities in this 2024 NOFA:

A. Increasing Investment in Economically Stressed Communities

EPA encourages the submission of projects that address the ever-increasing needs of economically stressed and disadvantaged communities to ensure they benefit from investments in water infrastructure, and therefore improve the public health and livability of these communities.

B. Making Rapid Progress on Lead Service Line Replacement

Many drinking water systems still have lead service lines. EPA encourages the submission of drinking water infrastructure projects that will help make rapid progress on replacing lead service lines to reduce exposure to lead and improve public health. There is no safe level of lead in drinking water. Full
