As provided under 19 CFR 351.309(c)(2) and (d)(2), in prior proceedings we have encouraged interested parties to provide an executive summary of their brief that should be limited to five pages total, including footnotes. In this review, we instead request that parties provide at the beginning of their briefs a public, executive summary for each issue raised in their briefs.⁹ Further, we request that interested parties limit their public executive summary of each issue to no more than 450 words, not including citations. We intend to use the public executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final determination in this investigation. We request that interested parties include footnotes for relevant citations in the public executive summary of each issue. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).¹⁰

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS within 30 days after the date of publication of this notice. Requests should contain: (1) the party's name, address, and telephone number; (2) the number of participants and whether any participant is a foreign national; and (3) a list of issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date of the hearing.

Assessment Rates

Consistent with section 751(a)(1) of the Act and 19 CFR 351.212(b)(2), upon issuance of the final results, Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, countervailing duties on all appropriate entries covered by this review. We intend to issue instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S.

⁹ We use the term "issue" here to describe an argument that Commerce would normally address in a comment of the Issues and Decision Memorandum.

¹⁰ See *APO and Service Final Rule*.

Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injection has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

In accordance with section 751(a)(2)(C) of the Act, Commerce also intends, upon publication of the final results, to instruct CBP to collect cash deposits of estimated countervailing duties in the amount shown for the company listed above with regard to shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review. For all non-reviewed firms, CBP will continue to collect cash deposits of estimated countervailing duties at the all-others rate or the most recent company-specific rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Final Results

Unless the deadline is extended pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), Commerce intends to issue the final results of this administrative review, including the results of its analysis of the issues raised by parties in their comments, within 120 days after the date of publication of these preliminary results.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(4).

Dated: October 4, 2024.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for a renewal of an approved information collection.

Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to NOAA's National Marine Fisheries Service (NMFS). NMFS manages the Atlantic sea scallop (scallop) fishery through a set of regulations that limit catch of scallops and fishing vessel activity. In addition, regulations limit catch of certain other species of fish in order to minimize bycatch and bycatch mortality (bycatch is the catch and discard of species that are not targeted in the scallop fishery). Finally, the regulations control vessel permitting and the exchange of effort and quota allocations between vessels. In order to effectively manage these resources, track fishing effort and catch, and to allow vessel owners to exchange fishing trips and quota, NMFS must collect information through the reporting requirements included in this renewal. This renewal contains the following information collections: Vessel Monitoring System (VMS) requirements; Access area trip exchange application procedures; Individual Fishing Quota (IFQ) transfers; Cost recovery; and IFQ sector program.

Access Area Trip Exchange Application

The one-for-one access area trip exchange program provides flexibility to scallop vessels about where they may fish. Participants need to send an access area trip exchange application to NMFS with the following information: Vessel

name and permit number, owner name and signature, specification of the areas involved in the exchange. Both vessels involved in the exchange are required to submit forms for cross verification. This measure provides flexibility to vessels regarding which areas to fish, thereby reducing the possibility of revenue loss to those vessels that are unable to access some distant areas due to vessel capacity constraints.

IFQ Transfers

IFQ permit holders can temporarily and/or permanently transfer individual fishing quota from one IFQ vessel to another. Quota transfers are requested through the submission of transfer applications. Required information includes vessel information, quota transfer information, and authorizing signatures from both parties. The IFQ transfer program is entirely optional, and provides greater flexibility for IFQ permit holders by enabling them to increase their vessel's IFQ or for individuals to lease or sell IFQ if they choose not to fish the allocation.

Cost Recovery

Section 304(d)(2) of the Magnuson-Stevens Act (MSA) requires an IFQ cost recovery plan to recover management and enforcement costs for IFQ fisheries. The FMP includes an IFQ cost recovery program, whereby NMFS will collect up to 3% of ex-vessel value of landed product to cover actual costs directly related to enforcement and management of the IFQ program. IFQ permit holders are required to submit a cost recovery payment annually via a pre-existing Federal payment system called www.pay.gov, which is also currently used by the Alaska Region and the Southeast Region. Information submitted via the internet would require the user to establish an online account, including personal and financial information. This requirement is necessary in order to comply with the provisions of the MSA and to collect payments from individuals that have been granted an allocation to a public resource.

IFQ Sector Program

The FMP contains provisions that authorize allocation of a portion of the overall IFQ fishery total allowable catch (TAC) to a self-selected group of IFQ permit holders (sector), provided the sector provides adequate information describing the formation of the sector and its intended plan of operations. Individuals or other entities (corporations, cooperatives, etc.) proposing a sector are required to submit a Sector Allocation Proposal and
