The Commission's rules prohibiting certain communications in Commission auctions are designed to reinforce existing antitrust laws, facilitate

detection of collusive conduct, and deter anticompetitive behavior, without being so strict as to discourage pro-competitive arrangements between auction participants. They also help assure participants that the auction process will be fair and objective, and not subject to collusion. The information collected under this information collection allows the Commission to enforce the prohibition on auction applicants and other covered parties by making clear the responsibility of parties who receive information that potentially violates the rules to promptly report to the Commission. It also enables the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions, thereby enhancing the competitiveness and fairness of Commission spectrum auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060-0174.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities and Individuals or households.

Number of Respondents and Responses: 52,760 respondents, 1,939,422 responses.

Estimated Time per Response: 0.0011 hour-2.166 hours.

Frequency of Response: Recordkeeping requirement; Third party disclosure requirement; On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 151, 152, 154(i), 154(j), 303(r), 307, 317, and 325(c) of the Communications Act, as amended.

Total Annual Burden: 347,851 hours.

Total Annual Cost: \$2,010,723.

Needs and Uses: The Commission, in the Second Report and Order, FCC 24-61, takes steps to ensure clear and reasonable foreign sponsorship identification rules. Section 73.1212(j) of the Commission’s rules, 47 CFR 73.1212(j), requires radio and television broadcast stations to disclose to their audiences, at the time of broadcast, when material aired pursuant to the lease of time on the station has been sponsored, paid for, or furnished by a foreign governmental entity. Section 73.1212(k) of the Commission’s rules, 47 CFR 73.1212(k), imposes corresponding obligations on stations with section 325(c) permits. The Commission’s authority to impose these regulations stems from section 317 of the Communications Act, which requires broadcast licensees to inform their audiences when the station has been paid to air a particular program, in furtherance of the longstanding broadcasting tenet that the public has a right to know the identity of those that solicit its support.

The foreign sponsorship identification rules require broadcast licensees, at the time of entering or renewing a lease agreement (unless a once-a-year exception applies), to exercise reasonable diligence to ascertain whether a programming disclosure is required. To ensure that licensees are complying with their reasonable diligence and disclosure obligations, the foreign sponsorship identification rules require licensees to memorialize their required inquiries of lessees and to maintain records of their programming disclosures and their reasonable diligence efforts.

In the Second Report and Order, the Commission modified the rule’s information collection requirements by adopting an approach that provides licensees with two options for demonstrating that they have met their duty of inquiry in seeking to obtain the information needed to determine whether the programming provided by a lessee is sponsored by a foreign governmental entity. The Commission designed this approach to provide licensees with as much flexibility as possible and to minimize their paperwork costs and burdens while still ensuring compliance with the reasonable diligence requirements.

One option available to licensees is the use of certifications, where both the licensee and the lessee complete a certification reflecting the communications and inquiries required under the existing rules. Licensees and lessees have the option either to use sample certification language set forth in simple, one-page, “check-box” templates appended to the Second Report and Order or to use language of the parties’ own choosing. Most licensee and lessee employees should be able to complete the forms quickly and readily, based upon their existing knowledge and understanding. It is highly unlikely that either the licensee or the lessee would need to engage in any type of research to respond to the queries contained in the certifications. Notably, these are the same inquiries the Commission adopted in the First Report and Order, only formatted now as a certification. If licensees and lessees prefer not to use the Commission’s templates, they may use their own certification language, provided that language addresses the points listed in § 73.1212(j)(3)(i) through (iii) of the rules, which were adopted in the First Report and Order. The Commission granted this flexibility to alleviate or minimize costs for licensees that already had developed their own certifications based on the existing foreign sponsorship identification rules. A

lessee’s certification should convey the information needed to determine whether a disclosure is required and the information needed for a broadcast disclosure if one is required.

As an alternative to the certification option, licensees may choose to ask their lessees for screenshots of lessees’ search results of two federal government websites (the Department of Justice’s FARA database and the Commission’s U.S.-based foreign media outlet report). Licensees choosing this option must still comply with all other aspects of the current rules, as they have been required to do since the compliance date of the First Report and Order. Licensees are encouraged to include in their lease agreements a requirement for lessees to provide notice of any change in status so as to trigger the need for a foreign sponsorship disclosure.
