SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1219.

Title: Connect America Fund-Alternative Connect America Cost Model Support.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 1,100 unique respondents; 1,100 responses.

Estimated Time per Response: 0.5 hours-2 hours.

Frequency of Response: On occasion and one-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151-154, 155, 201-206, 214, 218-220, 251, 252, 254, 256, 303(r), 332, 403, 405, 410, and 1302.

Total Annual Burden: 700 hours.

Total Annual Cost: No Cost.

Needs and Uses: The Commission is requesting approval for the extension of this collection. In March 2016, the Commission adopted significant reforms to place the universal service support program on solid footing for the next decade to preserve and advance voice and broadband service in areas served by rate-of-return carriers. Connect America Fund; ETC Annual Reports and Certifications; Establishing Just and Reasonable Rates for Local Exchange Carriers; Developing a Unified Intercarrier Compensation Regime, WC Docket Nos. 10-90, 14-58, 07-135, 05-337, 03-109; CC Docket Nos. 01-92, Report and Order, Order and Order on Reconsideration, and Further Notice of Proposed Rulemaking, FCC 16-33 (2016 Rate-of-Return Reform Order).

As part of the Rate-of-Return Reform Order, the Commission adopted a voluntary path for rate-of-return carriers to receive model-based support in exchange for making a commitment to deploy broadband-capable networks meeting certain service obligations to a pre-determined number of eligible locations in a state. By creating a voluntary pathway to model-based support, the Commission will spur new broadband deployment in rural areas. In several subsequent orders and public notices, the Commission has further refined this voluntary pathway, and in the December 2018 Rate-of-Return Reform Order, the Commission adopted a second pathway for carriers that did not elect the first pathway. Connect America Fund; ETC Annual Reports and Certifications; Establishing Just and Reasonable Rates for Local Exchange Carriers; Developing a Unified Intercarrier Compensation Regime, WC Docket Nos. 10-90, 14-58, 07-135, 05-337, 03-109; CC Docket Nos. 01-92, Report and Order, Further Notice of Proposed Rulemaking, and Order on Reconsideration, FCC 18-176 (December 2018 Rate-of-Return Reform Order).

This information collection addresses the requirement that carriers electing model-based support must notify the Commission of that election and their commitment to satisfy the specific service obligations associated with the amount of model support.

In the 2016 Rate-of-Return Reform Order, the Commission also adopted reforms to the universal service mechanisms used to determine support for rate-of-return carriers not electing model-based support. Among other such reforms, the Commission adopted an operating expense limitation to improve carriers' incentives to be prudent and

efficient in their expenditures, a capital investment allowance to better target support to those areas with less broadband deployment, and broadband deployment obligations to promote "accountability from companies receiving support to ensure that public investment are used wisely to deliver intended results." In the December 2018 Rate-of-Return Order, the Commission further modified or, in the case of the capital investment allowance, eliminated these requirements. Other requirements adopted in the Rate-of-Return Reform Order have been addressed under other Office of Management and Budget control numbers. We therefore propose to extend this information collection.

The Commission's rules prohibiting certain communications in Commission auctions are designed to reinforce existing antitrust laws, facilitate

detection of collusive conduct, and deter anticompetitive behavior, without being so strict as to discourage pro-competitive arrangements between auction participants. They also help assure participants that the auction process will be fair and objective, and not subject to collusion. The information collected under this information collection allows the Commission to enforce the prohibition on auction applicants and other covered parties by making clear the responsibility of parties who receive information that potentially violates the rules to promptly report to the Commission. It also enables the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions, thereby enhancing the competitiveness and fairness of Commission spectrum auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.
