

below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before June 20, 2025.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2511, to Rick Sacbibit, Chief, Engineering Services Branch, Risk Analysis, Planning & Information Directorate, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Risk Analysis, Planning & Information Directorate, FEMA, 400 C Street SW, Washington, DC 20472, (202)

646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in

support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Kristin E. Fontenot,

Assistant Administrator, Risk Analysis, Planning & Information Directorate, Federal Emergency Management Agency, Department of Homeland Security.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-HQ-IRTM-2025-0010; FXGO1664101EST0-256-FF10T90000; OMB Control Number 1018-0188]

Agency Information Collection Activities; U.S. Fish and Wildlife Service ArcGIS Online (AGOL) Platform

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), we, the U.S. Fish and Wildlife Service (Service), are proposing to renew a currently approved information collection.

DATES: Interested persons are invited to submit comments on or before May 20, 2025.

ADDRESSES: Send your comments on the information collection request by one of the following methods (please reference

Office of Management and Budget (OMB) Control No. 1018–0188 in the subject line of your comment):

- *Internet (preferred):* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS–HQ–ES–2025–0010.

- *U.S. mail:* Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, MS: PRB (JAO/3W); Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358–2503. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the information collection request at <https://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR part 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Service collects and maintains necessary geospatial data to meet our mission in accordance with the following authorities:

- Federal Funding Accountability and Transparency Act of 2006, as amended (31 U.S.C. 6101);
- Geospatial Data Act of 2018 (43 U.S.C. chapter 46, 2801–2811);
- National Technology Transfer and Advancement Act of 1995 (Pub. L. 104–113);
- Open, Public, Electronic, and Necessary (OPEN) Government Data Act (44 U.S.C. 3506(b)(6));
- Title II of the Foundations for Evidence-Based Policymaking Act of 2018 (Pub. L. 115–435);
- OMB Circular A–16, “Coordination of Geographic Information and Related Spatial Data Activities”;
- OMB Circular A–119, “Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities”;
- OMB Circular A–130, “Managing Information as a Strategic Resource.”

Geospatial data identify and depict geographic locations, boundaries, and characteristics of features on the surface of the earth. Geospatial data includes geographic coordinates (*e.g.*, latitude and longitude) to identify the location of earth's features, and data associated to geographic locations (*e.g.*, land survey data and land cover type data). The Service's organizational ArcGIS online program (AGOL), accessed at <https://fws.maps.arcgis.com>, is an easy place to share data with the public and partners, as well as internally among Service

staff. It can also be used to build and deploy mobile-enabled online maps, applications, and services for geographic information systems (GIS) users and non-GIS users alike. Sensitive data is restricted from public access via an internal-facing intranet version of AGOL. Moreover, because the system contains only controlled unclassified information (CUI) that would be designated as low impact under the Federal Information Security Act (FISMA, 2002), no personally identifiable information (PII) is allowed within the system.

The AGOL platform enables the Service to effectively manage geospatial data resources and technology to successfully deliver geospatial services in support of the Service's mission. Data collected through AGOL enables improved visualization, analysis, interoperability, modeling, sharing, and decision support. The benefits include increased accuracy, increased productivity, and more efficient information management and application support.

In addition to collecting name and contact information, additional comments about the submission, and photographs (optional), we collect the following types of data from our partners through AGOL to improve our online maps, web-mapping applications, and story maps (data collected is specific to a particular project; we will not collect all data types below with each submission):

- Road crossing data, to include data such as location data, global positioning system (GPS) coordinates, stream name and stream flow, road name, structure type and quantity, road surface type and condition, issues present at crossing, and name and contact.

- Stream crossing data, to include data such as location/description, GPS coordinates, crossing type, structures/barriers, inlet/outlet information, and stream flow type and condition.

- Conservation project data, to include data such as project title and description, partner names and contact information, start and end dates for project, whether project is new or updated, cost of project, relevant website information, geographical location of project, project species data, project strategy (*e.g.*, protect habitat, reduce human conflicts, climate change, etc.), and links to project reports.

- Reporting locations and/or status of Service assets (such as trails, roads, gates, etc.), invasive species, dead animals, trash on public lands, and possible hazards.

- Observations of wildlife occurrences, including location, species,

observer, counts, and other physical characteristics of interest.

- Vegetation monitoring data, which would include the condition of the resource, abundance, lifeform, and more.

We use the information collected from our partners to support critical geospatial services for Service programs/functions, such as:

Endangered Species and Fisheries and Habitat Conservation

- Monitoring the extent and status of wetlands for management, research, policy development, education, and planning through the National Wetlands Inventory (<https://www.fws.gov/wetlands/>).

- Performing natural resources damage assessments (NRDAs), including evaluating exposure of trust species to toxic spills.

- Proposing, designating, and informing the public about critical habitat for threatened and endangered (T&E) species, delivering official species lists, and undertaking consultations under section 7 of the Endangered Species Act.

- Providing information about sensitive resources (T&E species, Refuges, critical habitat) within the vicinity of a proposed project.

- Conducting large-scale, multidisciplinary, multi-species analysis for habitat conservation and

landscape conservation planning and restoration.

- Improving fish passage and modeling the effects of barrier removal.

Migratory Bird Conservation

- Conducting bird surveys: Survey design, navigation GPS files for airplane pilots, and spatially referenced survey data.

- Assessing habitat conditions and monitoring habitat improvement projects in joint ventures.

- Conducting research on relationships between bird abundance/productivity and habitat quantity and quality, and migration movement patterns.

National Wildlife Refuge System

- Developing alternatives for comprehensive conservation plans and supporting National Wildlife Refuge System (System) operational activities, including asset management, law enforcement, water resources, and fire management.

- Mapping realty transactions and land status of Service properties and proposed expansions.

- Analyzing strategic growth and land acquisition planning opportunities for the System.

- Conducting biological surveys and managing data, including inventory and monitoring, invasive species control, and habitat management plans.

- Managing Service infrastructure and assets.

- Planning, responding, and mitigating impacts from natural disasters such as wildfire, hurricanes, disease outbreaks, and more.

- Producing visitor service materials (maps, brochures) for public use and engagement of System lands.

Landscape Conservation Cooperatives

- Evaluating, planning, and implementing strategic habitat conservation and adaptive management at the landscape level.

- Performing biological planning, conservation design and delivery, monitoring, and research for climate change and other stressors at the landscape level.

Title of Collection: U.S. Fish and Wildlife Service ArcGIS Online (AGOL) Platform.

OMB Control Number: 1018–0188.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Private sector; State, local, and Tribal governments; and/or foreign governments.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

Requirement	Average number of annual respondents	Average number of responses each	Average number of annual responses	Average completion time per response (min)	Estimated annual burden hours*
AGOL Online Submissions:					
Private Sector	150	5	750	5	63
Government	150	5	750	5	63
Total	300	1,500	126

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[256A2100DD/AAKP300000/ AOA501010.000000]

Shakopee Mdewakanton Sioux Community; Amendments to Liquor Ordinance

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice publishes amendments to the Shakopee Mdewakanton Sioux Community liquor ordinance (Liquor Ordinance). The amended Liquor Ordinance supersedes the ordinance to allow for on-sale liquor

transactions adopted on August 15, 2012.

DATES: The amended Liquor Ordinance is effective March 21, 2025.

FOR FURTHER INFORMATION CONTACT:

Amy Kania, Acting Tribal Operations Officer, Midwest Regional Office, Bureau of Indian Affairs, 5600 West American Boulevard, Suite 500, Bloomington, Minnesota 55437; Telephone: (612) 725–4500; Fax: (612) 713–4401.

SUPPLEMENTARY INFORMATION: Pursuant to the Act of August 15, 1953, Public Law 83–277, 67 Stat. 586, 18 U.S.C. 1161, as interpreted by the U.S. Supreme Court in *Rice v. Rehner*, 463 U.S. 713 (1983), the Secretary of the Interior shall certify and publish in the
