[Docket No. CP24-12-001]

Transcontinental Gas Pipe Line Company, LLC; Notice of Request for Extension of Time

Take notice that on March 25, 2025, Transcontinental Gas Pipe Line Company, LLC (Transco) requested that the Commission grant an extension of time, until March 26, 2026, to complete its Ship Shoal 246 to Ship Shoal 242 Abandonment Project (Project) located offshore Louisiana as authorized in the Order Authorizing Abandonment (Order).¹ The Order required Transco to complete abandonment of the Project facilities within one year of the date of the Order, or by March 26, 2025.

Transco states that difficulties during pigging operations and issues isolating the section of pipeline to be abandoned led to unforeseen delays in the Project. Transco states that a malfunctioning isolating valve at the end of the line had to be removed and replaced with a line stop fitting to achieve isolation of the pipeline to be abandoned. Additionally, Transco states that vessel availability issues, adverse weather, and the complexities of pig troubleshooting, ultimately made it impossible to complete the Project within the originally prescribed timeframe.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Transco’s request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and

Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,² the Commission will aim to issue an order acting on the request within 45 days.³ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁴ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁵ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁶ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<https://www.ferc.gov>). [Project No. 15394-000]

New England Hydropower Company, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 6, 2025, New England Hydropower Company, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Eastvale Dam Hydroelectric Project (Eastvale Project) on the Beaver River in Beaver County, near the City of Beaver Falls in Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant

the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Eastvale Project would consist of the following: (1) an existing 490-foot-long, 12.5-foot-high concrete-lined dam with an overflow crest elevation of 730.7 feet mean sea level (msl); (2) an existing impoundment; (3) three new 24-foot-wide, 87-foot-long turbine bays each housing two turbine-generator units—each unit with a capacity of 350 kilowatts (kW) for a total capacity of 2,100 kW; (4) a new 16-foot-wide, 35-foot-long electrical control building; (5) a new 100-foot-long transmission line; and (6) appurtenant facilities. The proposed project would have an annual generation of 9,200 megawatt-hours.

Applicant Contact: Michael Kerr, New England Hydropower Company, LLC, 100 Cummings Center, Suite 451C, Beverly, MA 01915; phone: (978) 360-2547.

FERC Contact: Monir Chowdhury; phone: (202) 502-6736.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <https://ferconline.ferc.gov/FERCOOnline.aspx>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <https://ferconline.ferc.gov/QuickComment.aspx>.
