

automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–OSHA.

Title of Collection: Construction Standards on Posting Emergency Telephone Numbers and Floor Load Limits.

OMB Control Number: 1218–0093.

Affected Public: Private Sector—Businesses or other for-profits.

Total Estimated Number of Respondents: 937,602.

Total Estimated Number of Responses: 306,140.

Total Estimated Annual Time Burden: 65,283 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Senior Paperwork Reduction Act Analyst.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with

the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before June 4, 2025.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Coal mine operators are required to conduct inspections of slope and shaft areas of hazardous conditions, including tests for methane and oxygen deficiency, before and during each shift and before and after blasting. Records of the results of the inspections are required to be kept. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 31, 2024 (89 FR 86840).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL–MSHA.

Title of Collection: Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Areas of

Slope and Shaft Sinking Operations at Coal Mines.

OMB Control Number: 1219–0082.

Affected Public: Private Sector.

Number of Respondents: 15.

Number of Responses: 6,600.

Annual Burden Hours: 8,250 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

BILLING CODE 4510–43–P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed new collection, “BLS Wage Records Data Application.” A copy of the proposed information collection request can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before July 7, 2025.

ADDRESSES: Send comments to Erin Good, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Erin Good, BLS Clearance Officer, at 202–691–7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The BLS Quarterly Census of Employment and Wages (QCEW) Program produces a comprehensive tabulation of employment and wage information for workers covered by State unemployment insurance laws and is a virtual census of payroll employment. The BLS produces publicly available files from the QCEW data that include information on the number of establishments, monthly employment, and quarterly wages, by industry, at the 6-digit North American Industry Classification System (NAICS) level, by county by ownership sector, for the entire United States. QCEW data have broad significance in evaluating labor trends and major industry developments. They are used in time series analyses, industry comparisons, and in special studies such as analyses of wages by size of establishment. The program also produces data necessary to both the Employment and Training Administration (ETA) and various State employment security agencies in administering the employment security program.

The QCEW Program contains no individual wage records data; however, the BLS has started a program to exchange data about the employment and wages of individuals that was not previously provided from employers or State UI programs under the QCEW. The program promotes the interchange of information, from participating States who have entered into MOUs with the BLS. The additional wage records data will be compiled into a multi-state longitudinal database and the data will be used to improve existing BLS data products and to explore the creation of new ones. The longitudinal database will allow for research on outcomes of specified cohorts. This type of research answers questions of, for example outcomes for people who receive job training assistance. In addition, compiling a longitudinally linked multi-state database will also provide State partners with limited out-of-state wage records for the purpose of economic and statistical research and further State administration of Workforce Innovation and Opportunity Act (WIOA), 29 U.S.C. chapter 32, reporting requirements.

To provide wage records information to participating States, the BLS must collect certain information from the States. This information collection allows the BLS to obtain the details necessary for providing accurate data to participating States.

II. Current Action

Office of Management and Budget clearance is being sought for a new collection that will allow States participating in the Bureau of Labor Statistics (BLS) Unemployment Insurance (UI) Wage Records Data Sharing Program to request data from other participating States for statistical research.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: BLS Wage Records Data Application.

OMB Number: 1220-NEW.

Type of Review: New collection.

Affected Public: State governments.

Annual Number of Respondents: 20.

Frequency: Once.

Total Annual Responses: 20.

Average Time per Response: 10 minutes.

Estimated Annual Total Burden Hours: 3.33 hours.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed on March 21, 2025.

Eric Molina,

*Chief, Division of Management Systems,
Branch of Policy Analysis.*

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 25-013; NASA Docket Number: NASA-2025-0004]

Name of Information Collection: NASA Aviation Safety Reporting System (ASRS) and Related Voluntary Safety Reporting Systems (VSRS)

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Renewal of information collection.

SUMMARY: NASA, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (PRA).

DATES: Comments are due by July 7, 2025.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice at <http://www.regulations.gov> and search for NASA Docket NASA-2025-0004.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256-714-8575, or email stayce.d.hoult@nasa.gov or hq-ocio-pra-program@mail.nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Ames Research Center, Human Systems Integration Division, manages voluntary safety reporting systems to collect and share safety information including, but not limited to, the NASA Aviation Safety Reporting System (ASRS) and the Confidential Close Call Reporting System (C3RS). Both systems are voluntary reporting systems for the reporting of safety incidents, events, or situations. Respondents include, but are not limited to, any participant involved in safety-critical domains such as aviation or railway operations including commercial and general aviation pilots, drone operators, air traffic controllers, flight attendants, ground crews, maintenance technicians, dispatchers, train engineers, conductors, and other members of the public. The collected safety data are used by NASA, Federal Aviation Administration (FAA), Federal
