

share (QS) for lease to residents of the eligible community. Under the Charter Halibut Limited Access Program, a CQE may request community charter halibut permits for use in southeast Alaska and the central Gulf of Alaska by charter vessel operators designated by the CQE. Under the License Limitation Program (LLP), a CQE may request non-trawl groundfish LLP licenses endorsed for Pacific cod in the central or western Gulf of Alaska for use on vessels designated by the CQE. More information on the CQEs and the CQE Program is provided on the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/alaska/sustainable-fisheries/community-quota-and-license-programs-community-quota-entities>.

This information collection is required in Federal regulations at 50 CFR 300 Subpart E and Part 679. The eligible communities and the community governing body that recommends the CQE are listed in Table 21 to 50 CFR part 679.

This collection contains applications used by a nonprofit corporation to become a CQE; by CQEs to receive non-trawl groundfish LLP licenses and Charter Halibut Permits (CHPs); by CQEs to transfer or receive IFQ QS; by CQEs to transfer IFQ to an eligible community resident or non-resident; and by CQEs to transfer between commercial halibut IFQ and halibut guided angler fish (GAF). In addition, this collection contains two reporting requirements: an annual report and an authorization letter. Annually, each CQE must submit a report describing its business operations and fishing activities for each eligible community it represents. CQEs requesting LLP groundfish licenses must annually submit an authorization letter that assigns each community LLP license to a user and vessel.

The type of information collected includes information on the applicants, transferors, transferees, authorized representatives, and communities represented, as well as information on the procedures, criteria, administrative activities, business operations, community fishing activities, sweep-up information, certificate and licensing information, and fishing activities pertaining to the application.

NMFS requires this information for fisheries management and to evaluate the ability of a specific CQE to represent an eligible community. NMFS uses the information collected to establish eligibility of the CQEs; review each CQE's business operations and fishing activity; monitor participation of the eligible communities in the CQE

Program and associated limited access programs; and gather information on distribution and use among these communities of LLP groundfish licenses, CHPs, and halibut and sablefish QS and IFQ.

All of the forms, except for the Application for Community Charter Halibut Permit at § 300.67(k), can now be submitted electronically via email. These forms will be updated accordingly to clarify that electronic submission is allowed.

II. Method of Collection

The applications are available as fillable PDFs on the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/permit/alaska-community-quota-entity-applications> that may be downloaded, emailed, printed, faxed, or delivered to NMFS, with the exception of the Application for Community Charter Halibut Permit at § 300.67(k), which may be only submitted by mail, hand delivery, or facsimile. The CQE annual report must be mailed. The CQE authorization letter may be submitted as an attachment to an email.

SUPPLEMENTARY INFORMATION:

Title: Swap Data Recordkeeping and Reporting Requirements: Pre-Enactment and Transition Swaps (OMB Control No. 3038–0089). This is a request for an extension of a currently approved information collection.

Abstract: Sections 4r(a)(2)(A) and 2(h)(5) of the Commodity Exchange Act requires the reporting of pre-enactment and transition swaps. Regulations 46.2, 46.3, and 46.11 establish reporting requirements that are mandated by 4r and 2(h) and, thus, are necessary to implement the objectives of 4r and 2(h). Regulation 46.2 establishes swap counterparties’ recordkeeping requirements for pre-enactment and transition swaps. Regulation 46.3 establishes reporting requirements for uncleared pre-enactment or transition swaps in existence on or after April 25, 2011, and throughout the existence of the swap.² Regulation 46.11 addresses the reporting of errors and omission in previously reported data. The data required to be compiled and maintained pursuant to the Part 46 regulations would be used by the Commission and other financial regulators for fulfillment of various regulatory mandates. The collection of information is needed to ensure that the CFTC and other regulators have access to data regarding pre-enactment and transition swaps, as required by the Commodity Exchange Act as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burden for this collection to reflect the current number of respondents and estimated burden hours. The respondent burden for this collection is estimated to be as follows:
