Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed extension of the currently approved collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.¹

Title: Rule 50.50 End-User Notification of Non-Cleared Swap (OMB Control No. 3038–0085). This is a request for an extension of a currently approved information collection.

Abstract: CFTC Rule 50.50 specifies the requirements for eligible end-users who may elect the end-user exception from the Commission's swap clearing requirement, as provided under section 2(h)(7) of the Commodity Exchange Act ("CEA"). Rule 50.50 requires the counterparties to report certain information to a swap data repository registered with the Commission, or to the Commission directly, if one or more counterparties elects the end-user exception. The rule establishes a reporting requirement for end-users that is critical to ensuring compliance with the Commission's clearing requirement under section 2(h)(1) of the CEA and is necessary in order for Commission staff to prevent abuse of the end-user exception. In addition, this collection relates to information that the Commission needs to monitor elections of the end-user exception and to assess market risks.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <http://www.cftc.gov>. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.²

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <http://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the information collection request will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The Commission is revising its estimate of the burden for this collection for eligible end-users electing the end-user exception under CFTC Rule 50.50. The Commission is increasing its estimate of the number of respondents from 1,200 to 1,933 based on a calculated increase in the number of entities electing the exception. The respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents: 1,930.

Estimated Average Burden Hours per Respondent: 0.58 hours.

Estimated Total Annual Burden Hours: 1,119 hours.

Frequency of Collection: On occasion; annually.

There are no capital costs or operating and maintenance costs associated with this collection.
