Abstract: The collection, use, and reporting of education data is an integral component of the mission of the U.S. Department of Education (Department). The Department has collected civil rights data about the nation’s public schools via the Civil Rights Data Collection (CRDC) since 1968. As with previous CRDC collections, the purpose of the 2025–26 and 2027–28 CRDCs is to obtain vital data related to the civil rights laws’ requirement that public local educational agencies (LEA) and elementary and secondary schools provide equal educational opportunity. The Department has analyzed the uses of many data elements collected in the 2020–21 CRDC and sought advice from experts across the Department to refine, improve, and where appropriate, add or remove data elements from the collection. CRDC data definitions and metrics are consistent with other mandatory collections across the Department wherever possible. The Department seeks the Office of Management and Budget’s approval under the Paperwork Reduction Act to collect from LEAs the elementary and secondary education data described in the sections of Attachment A. The Department requests that LEAs and other stakeholders review and comment on the proposed changes (detailed in Supporting Statement A, Attachments A–1, A–2, A–3, and A–4, and Attachment B).
