Title of Collection: 84.421F Disability Innovation Fund (DIF) Evidence Building Support (EBS).

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 24.

Total Estimated Number of Annual Burden Hours: 36.

Abstract: The U.S. Department of Education's Rehabilitation Services Administration (RSA) requests clearance for a new data collection activity to support the 84.421F Disability Innovation Fund (DIF) Evidence-Building Support (EBS) project. The purpose of the DIF, as provided by the Consolidated Appropriations Act, 2023 (Pub. L. 117–328), is to support innovative activities aimed at increasing competitive integrated employment (CIE) as defined in section 7 of the Rehabilitation Act of 1973 (Rehabilitation Act) (29 U.S.C. 705(5)) for children, youth, and other individuals with disabilities. RSA is investing a total of \$251,934,086 in grant funding to the 27 State Vocational Rehabilitation (VR), other State agencies, Public, Private and Nonprofit Entities, including Indian Tribes and Institutions of Higher Education through the 84.421F DIF program.

This request covers the following single primary data collection for the EBS:

- Annual interviews with 84.421F DIF project directors.

In September 2024, RSA awarded five-year cooperative agreements to 27 State VR, other State agencies, Public, Private and Nonprofit Entities, including Indian Tribes and Institutions of Higher Education to implement model demonstration projects. The projects vary across the 27 grants but they share the same purpose, which is to develop, implement, refine, assess, and disseminate innovative or substantially improved strategies or programs geared toward increasing CIE for individuals with disabilities. RSA is conducting evaluation and technical assistance (TA) activities and will report on implementation and evaluation progress across all grantees in Annual Evidence Reports. This report will also document findings that RSA can use to coordinate ongoing activities and communicate with outside agencies and congressional staff. To supplement the existing data sources, RSA will conduct one annual semi-structured interviews with the individual grantee project directors in grant Years 2, 3, 4 and 5 (Calendar Year (CY) 2025–CY 2029). These interviews will provide valuable qualitative insights into overall project goals, implementation progress, and the barriers and facilitators encountered—information that is not captured through

administrative data reporting alone. This richer understanding will help fill critical gaps and will support the development of the Annual Evidence Report, inform evaluations, coordination, and evaluation technical assistance efforts.

Ross Santy,

Chief Data Officer, Office of Planning, Evaluation and Policy Development.
