

designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission previously approved the removal of the 25,000 contract position and exercise limits for GBTC, BTC, and BITB, such that those funds will be subject to the position and exercise limits as determined for equity options for which no set limit has been otherwise established on that exchange.⁶² The Exchange is proposing similarly to remove of the 25,000 contract position and exercise limit for GBTC, BTC, and BITB, such that those funds will be subject to the position and exercise limits as determined by the position limit rules at Rule 3120. The Exchange has provided information regarding GBTC, BTC, and BITB, including, among other things, information regarding trading volume, and the market capitalization of GBTC, BTC, and BITB and surveillance procedures that will apply. The Commission notes that the proposal raises no new or novel legal issues and would simply provide an additional venue for trading GBTC, BTC, and BITB with position and exercise limits that may be higher than 25,000 contracts. Therefore, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the 30-day operative delay and designates the proposed rule change as operative upon filing.⁶³

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)⁶⁴ of the Act to determine whether the proposed rule

change should be approved or disapproved.
