SUPPLEMENTARY INFORMATION:

Title: Standards of Conduct for Transmission Provider and Marketing Affiliates of Interstate Pipelines.

OMB Control No.: 1902–0157.

Type of Request: Three-year extension of the FERC–592 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission uses the information maintained and posted by the respondents to monitor the pipeline’s transportation, sales, and storage activities for its marketing affiliate to deter undue discrimination by pipeline companies in favor of their marketing affiliates. Non-affiliated shippers and other entities (e.g. state commissions) also use the information to determine whether they have been harmed by affiliate preference and to prepare submissions and formulate positions in rate cases and other proceedings.

¹ The Standards for Business Practices and Communications Protocols for Public Utilities, FERC–717, is reflected in a separate and currently approved information collection (OMB Control No. 1902–0173).
