Title of Collection: Transition and Postsecondary Programs for Students With Intellectual Disabilities (TPSID) Evaluation Protocol.

OMB Control Number: 1840–0825.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 40.

Total Estimated Number of Annual Burden Hours: 788.

Abstract: The Transition and Postsecondary Programs for Students with Intellectual Disabilities Coordinating Center (TPSID–CC) program is the evaluation arm for the work that is being completed by the TPSID program grantees. TPSID–CC uses data collected from the work that the TPSID program grantees are doing on behalf of the TPSID program participants, to establish a comprehensive research and evaluation protocol for TPSID program grantees, non-TPSID program CTP (comprehensive transition programs) and pertinent stakeholders. TPSID program grantees can use the evidence-based information they receive from the data that is collected by the TPSID–CC to find ways to apply what they have learned to their respective TPSID program projects. Simultaneously, the TPSID–CC is also providing technical assistance to build the capacity of IHEs across the country to make college possible for students with intellectual disabilities who want to go to college. Data must be collected by the TPSID–CC on accreditation standards and communications with recognized accrediting agencies; descriptions and analyses of funding streams, and the impact of the TPSID–CC’s technical assistance activities related to outreach and dissemination.

In October 2020, the Institute for Community Inclusion (ICI), UMass Boston received a five-year cooperative agreement from the Office of Postsecondary Education to serve as the National Coordinating Center (NCC) for colleges and universities implementing inclusive higher education programs for students with intellectual disabilities, including 22 model demonstration projects aimed at creating inclusive comprehensive transition and postsecondary programs for students with intellectual disabilities known as Transition and Postsecondary Programs for Students with Intellectual Disabilities (TPSIDs).

To reduce respondent burden, the NCC has streamlined and simplified the

previously approved evaluation system for the TPSID programs. The NCC will enhance the collection and analyses of longitudinal follow-up data from TPSID model programs via an already developed and previously OMB approved evaluation system for the TPSID programs. The revised data collection system is part of an evaluation effort. The system will collect program data at the institutions from TPSID program staff via an online, secure data management system.
