SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration Acquisition Regulation (GSAR) 552.236–79, Construction-Contractor-as-Constructor, requires the contractor to submit a proposal to establish the final estimated cost of the work, to convert the contract to a firm-fixed-price, and to determine the final settlement for construction-manager-as-constructor (CMc) projects.

The CMc refers to a project management and contracting technique that is one of three predominant methods used for acquiring construction services by GSA. The other two methods are design-bid-build and design-build. The private sector commonly uses a similar construction project delivery method, which allows for early industry engagement by the construction contractor to enable reduced cost growth, reduced schedule growth, and administrative savings.

The information is used by contracting officers to evaluate proposals and negotiate contract modifications during contract administration. This collection supports the Government's shift toward category management by providing a more robust playbook framework for efficient procurement of construction services.

B. Annual Reporting Burden

Total public reporting burden for this collection of information is estimated to average 400 total hours (\$33,300) annually, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. The estimated burden hours to the public for the below clauses are as follows:

GSAR 552.236–79, Construction-Contractor-as-Constructor, requires the contractor to submit a proposal to establish the final estimated cost of the work, to convert the contract to a firm-fixed-price, and to determine the final settlement.

Respondents: 10.

Responses per Respondent: 1.

Total Annual Responses: 10.

Hours per Response: 40.

Total Response Burden Hours: 400.

Cost per Hour: \$83.25.

Estimated Cost Burden to the Public: \$33,300.

GSAR 552.236–80, Accounting Records, contains a recordkeeping requirement that is subject to the Paperwork Reduction Act (44 U.S.C. 3501, *et seq.*). The clause requires the contractor to keep all relevant

documents for a period of three years after the final payment. However, the clause does not add burden to what is already estimated for the existing FAR clause at 52.215–2, Audit and Records by a previous information collection (see OMB Control Number 9000–0034).

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary; whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Jeffrey A. Koses,

Senior Procurement Executive, Office of Acquisition Policy, Office of Government-wide Policy.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Severity Diagnosis Related Groups

Reclassification Request (MS–DRGs); *Use:* Section 1886(d)(4) of the Act establishes a classification system, referred to as DRGs, for inpatient discharges and adjusts payments under the IPPS based on appropriate weighting factors assigned to each MS–DRG. Section 1886(d)(4)(C)(i) of the Act specifies adjustments to the classification and weighting factors shall occur “at least annually to reflect changes in treatment patterns, technology, and other factors which may change the relative use of hospital resources.”

The requests are evaluated in the Division of Coding and DRGs (DCDRG) by the DRG and Coding Team and the clinical advisors (medical officers) in both the Technology, Coding and Pricing Group (TCPG) and the Hospital and Ambulatory Policy Group (HAPG), along with the CMS contractor(s). This team participates via conference calls in the review of MedPAR claims data to analyze and perform clinical review of the requested changes. Based on the examination of claims data and clinical judgment, the team provides recommendations to CMS and HHS leadership for proposed changes. Per the statute, proposed MS–DRG changes and payment adjustments must go through notice and comment rulemaking giving the opportunity for the public to comment. Finalized MS–DRG changes are effective with discharges on and after October 1, consistent with the beginning of the fiscal year. CMS makes the updated MS–DRG Grouper software and related materials that reflects the changes available to the public for free via download at: <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS/MS-DRG-Classifications-and-Software>.

When an application is submitted in MEARIS™, the DRG and Coding Team in DCDRG will have instant access to the application request and accompanying materials to facilitate a more-timely review of the request, including the ability to efficiently inform other team members involved in the process that information is available for their review and input. *Form Number:* CMS–10775 (OMB control number 0938–1431); *Frequency:* Occasionally; *Affected Public:* Private Sector, Business or other for-profits, Not-for-profits institutions; *Number of Respondents:* 50; *Total Annual Responses:* 50; *Total Annual Hours:* 48,000.
