j. *Cooperating agencies*: With this notice, the Commission is inviting federal, state, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item k below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. The deadline for filing comments, motions to intervene, and protests is September 26, 2025, 5:00 p.m. Eastern Time.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request*: The applicant requests a temporary variance of Article 402, which requires a

The trash sluice is also used to provide resident fish a downstream bypass. The trash sluice/fish bypass is currently closed in order to complete dam safety improvements, and the licensee proposes to keep the trash sluice/fish bypass closed until December 1, 2025. The generating units are currently offline and would remain offline, with all flow passed over the Station 5 Dam.
