

90-day Federal Authorization Decision Deadline²—March 15, 2026

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project would consist of the facilities and activities detailed below, all in Daggett County, Utah:

- construction of the Daggett CS, adjacent to the existing Clay Basin Meter Station (which would undergo minor modification);
- construction of one low nitrogen oxides-emitting gas-fired turbine compressor unit with 11,110 nominal horsepower;
- installation of 24-inch-diameter suction and discharge yard piping to interconnect the Daggett CS to Northwest's existing 26-inch-diameter Northwest Pipeline; and
- installation of auxiliary facilities to support the new compressor station, including utility buildings, an emergency generator, and a 140-foot-tall communication tower.

Background

On July 9, 2025, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Wild Trail Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the Notice of Scoping, the Commission received one comment from the Public Lands Policy Coordinating Office stating that the Project is within the Uintah Sage Grouse Management Area, as well as recommending that no new construction activities to take place between December 1 to April 15, in order to minimize the potential for disturbance to elk and pronghorn. All

substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP25-497), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: August 29, 2025.

Debbie-Anne A. Reese,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0720; FRL-12739-01-OCSPP]

Pesticide Registration Review; Pesticide Dockets Opened for Review and Comment; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document announces the availability of the EPA's work plans and registration review case dockets for the following chemicals: ethaboxam, and urea sulfate. EPA is opening the case dockets to allow for public review and comment for these work plans.

DATES: Comments must be received on or before November 3, 2025.

ADDRESSES: Submit your comments, using the docket identification (ID) number for the specific pesticide of interest as provided in Table 1 of Unit I., online at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For pesticide specific information, contact: The Chemical Review Manager for the pesticide of interest identified in Table 1 of Unit I.

For general questions on the registration review program, contact: Melanie Biscoe, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 566-0701; email address: biscoe.melanie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Purpose of This Notice

Pursuant to 40 CFR 155.50(b), this notice announces the availability of the EPA's work plans and registration review case dockets for the pesticides shown in Table 1 and opens a 60-day public comment period on the work plans and case dockets.

² The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

TABLE 1—WORK PLANS BEING MADE AVAILABLE FOR PUBLIC COMMENT

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Ethaboxam Case Number 7053	EPA-HQ-OPP-2025-0118	Benjamin Tweed, tweed.benjamin@epa.gov , (202) 566-2274.
Urea Sulfate Case Number 7213	EPA-HQ-OPP-2025-0164	Concepción (Conchi) Rodríguez, rodriguez.concepcion@epa.gov , (202) 566-0820.

II. Background

EPA is conducting its registration review of the chemicals listed in Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)).

Pursuant to 40 CFR 155.50, EPA initiates a registration review by establishing a public docket for a pesticide registration review case. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency has considered during registration review. Consistent with 40 CFR 155.50(a), these dockets may include information from the Agency's files including, but not limited to, an overview of the registration review case status, a list of current product registrations and registrants, any **Federal Register** notices regarding any pending registration actions, any **Federal Register** notices regarding current or pending tolerances, risk assessments, bibliographies concerning current registrations, summaries of incident data, and any other pertinent data or information. EPA includes in these dockets a Preliminary Work Plan (PWP), and in some cases a continuing work plan (CWP), summarizing information EPA has on the pesticide and the anticipated path forward.

Consistent with 40 CFR 155.50(b), EPA provides for at least a 60-day public comment period on work plans and registration review dockets. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary changes to a pesticide's workplan. During this public comment period, the Agency is asking that interested persons identify any additional information they believe the agency should consider

during the registration reviews of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

III. What should I consider as I prepare a comment for EPA?

This notice is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in Table 1 of Unit I. In submitting a comment to EPA, please consider the following:

1. **Submitting CBI.** Do not submit this information to the EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to the EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

All comments should be submitted using the methods in **ADDRESSES** and must be received by the EPA on or before the closing date. These comments

will become part of the docket for the pesticides included in Table 1 of Unit I. The Agency will consider all comments received by the closing date and may respond to comments in a "Response to Comments Memorandum" in the docket or the Final Work Plan (FWP), as appropriate.

Authority: 7 U.S.C. 136 *et seq.*

Dated: August 27, 2025.

Jean Anne Overstreet,

*Director, Pesticide Re-Evaluation Division,
Office of Pesticide Programs.*

[EPA-R02-OAR-2025-0619; FRL-12907-01-R2]

Adequacy Status of the New York Portion of the New York-Northern New Jersey-Long Island submitted PM_{2.5} Limited Maintenance Plan, 2006 24 Hour PM_{2.5} Maintenance Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: The Environmental Protection Agency (EPA) is notifying the public that we have found that the Limited Maintenance Plan for PM_{2.5} for the New York portion of the New York-Northern New Jersey-Long Island (NY-NJ-CT) PM_{2.5} maintenance area, submitted by the New York State Department of Environmental Conservation on October 15, 2024, is adequate for transportation conformity purposes. This revision to the State Implementation Plan is associated with the second ten-year PM_{2.5} Limited Maintenance Plan.

DATES: This finding is effective on September 19, 2025.

ADDRESSES: Publicly available docket materials, identified by Docket ID Number EPA-R02-OAR-2025-0619, are available either electronically through www.regulations.gov or in hard copy at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The Docket Center's hours of operations are 8:30 a.m.–4:30 p.m., Monday–Friday (except
