SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-103812; File No. SR-NASDAQ-2025-063]

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule Equity 7, Section 115 and Rule Equity 7, Section 130

August 29, 2025

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 18, 2025, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been substantially prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to (1) amend Rule Equity 7, Section 115 (Ports and Services) to establish a port fee for newly added CORE FIX Order entry ports, (2) amend Rule Equity 7, Section 130 (Other Services) to waive the Nasdaq testing facility fee for the newly added CORE FIX entry ports, and (3) amend the language in Sections of 115 and 130 to remove the temporary waiver language pertaining to OUCH 5.0, as described further below.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/nasdaq/rulefilings>, and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement on the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange recently established CORE FIX, a new Order³ entry protocol that will cater to the customer segment that currently uses FIX but does not have a need for its routing capabilities.⁴ CORE FIX will utilize the same standardized protocol as FIX but eliminate the intricate RASH-based software layer that provides for Order routing functionality. Currently, Nasdaq charges \$575/port/month for similar Order entry protocols such as OUCH and RASH.⁵

The Exchange proposes to amend Equity 7, Section 115 to adopt a fee of \$575/port/month for the newly added CORE FIX order protocol, which is similar to other current port fees. Additionally, the Exchange proposes a 30-day waiver of the CORE FIX production port fee for up to five (5) newly added CORE FIX ports. The fee waiver would be offered for a three-month period, beginning on the date when CORE FIX first becomes available on the Exchange, which such date the Exchange shall announce in an Equity

³ The term "Order" means an instruction to trade a specified number of shares in a specified System Security submitted to the Nasdaq Market Center by a Participant. An "Order Type" is a standardized set of instructions associated with an Order that define how it will behave with respect to pricing, execution, and/or posting to the Nasdaq Book when submitted to Nasdaq. An "Order Attribute" is a further set of variable instructions that may be associated with an Order to further define how it will behave with respect to pricing, execution, and/or posting to the Nasdaq Book when submitted to Nasdaq. The available Order Types and Order Attributes, and the Order Attributes that may be associated with particular Order Types, are described in Rules 4702 and 4703. One or more Order Attributes may be assigned to a single Order; provided, however, that if the use of multiple Order Attributes would provide contradictory instructions to an Order, the System will reject the Order or remove non-conforming Order Attributes. See Equity 4, Section 1(a)(7).

⁴ The CORE FIX Order entry protocol is a proprietary protocol that allows subscribers that do not utilize routing strategies to gain faster direct access to quickly enter orders into the System and receive executions. CORE FIX accepts limit Orders from members, and if there are matching Orders, they will execute. Nonmatching Orders are added to the Limit Order Book, a database of available limit Orders, where they are matched in price-time priority. CORE FIX only provides a method for members to send Orders and receive status updates on those Orders.

⁵ The RASH (Routing and Special Handling) Order entry protocol is a proprietary protocol that allows members to enter Orders, cancel existing Orders and receive executions. RASH allows participants to use advanced functionality, including discretion, random reserve, pegging and routing.
