

collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

Annual Submission of the Ingredients Added to, and the Quantity of Nicotine

Contained in, Smokeless Tobacco Manufactured, Imported, or Packaged in the U.S. (OMB Control No. 0920-0338, Exp. 1/31/2026)—Extension—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Smokeless tobacco products (SLT) are associated with many health problems. Using smokeless tobacco can lead to nicotine addiction; causes cancer of the mouth, esophagus, and pancreas; is associated with diseases of the mouth; can increase risks for early delivery and stillbirth when used during pregnancy; can cause nicotine poisoning in children; and may increase the risk for death from heart disease and stroke.

As required by the Comprehensive Smokeless Tobacco Health Education Act of 1986 (CSTHEA, 15 U.S.C. 4401 *et seq.*, Pub. L. 99-252), CDC collects a list of ingredients added to tobacco in the manufacture of smokeless tobacco products and a specification of the quantity of nicotine contained in each product. Respondents are not required to submit specific forms; however, they are required to meet reporting guidelines and to submit the ingredient report by chemical name and Chemical

Abstract Service (CAS) Registration Number, consistent with accepted reporting practices for other companies that are required to report ingredients added to other consumer products, and to report on the quantity of nicotine contained in each smokeless tobacco product as specified in previous **Federal Register** Notices. Respondents may submit the required information to CDC through a designated representative. The information collection is subject to strict confidentiality provisions.

Ingredient and nicotine analysis reports for new SLT products are due at the time of first importation. Thereafter, ingredient reports are due annually on March 31. Following receipt of the annual nicotine and ingredient report, CDC issues a Certificate of Compliance to the respondent. As deemed appropriate by the Secretary of HHS, HHS is authorized to use the information to report to Congress the health effects of ingredients, research activities related to the health effects of ingredients, and other information that the Secretary determines to be of public interest.

The total estimated annualized burden hours are 18,843. OMB approval is requested for three years. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Smokeless Tobacco Manufacturers, Packagers, and Importers.	SLT Ingredient Report	11	1	6.5	71.5
Smokeless Tobacco Manufacturers, Packagers, and Importers.	SLT Nicotine Data Reporting	11	1	1,706.5	18,771.5
Total	18,843

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Public Health Ethics and Regulations, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[OMB #: 0970-0307]

Proposed Information Collection Activity; State Court Improvement Program

AGENCY: Children's Bureau, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) is requesting a 3-year extension of the

State Court Improvement Program (SCIP) Strategic Plan Template and Annual Self-Assessment (Office of Management and Budget (OMB) #0970-0307, expiration February 28, 2026). There are minor updates to the self-assessment to reflect new legislation as well as to support technical assistance. The collections are necessary to continue operating the program in compliance with congressional reauthorization.

DATES: *Comments due* November 10, 2025.

ADDRESSES: In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects

of the information collection described above. You can obtain copies of the proposed collection of information and submit comments by emailing opreinfocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The SCIP provides federal funding to state courts to assess their child welfare and judicial practices and develop and implement improvement plans. States use funds in a variety of ways, including improving legal representation and hearing quality, enhancing the engagement of families in court proceedings, and supporting child welfare and court partnerships. The proposed collection is a continuation of the current collection and comprised of two instruments: a strategic plan and self-assessment. The self-assessment reflects what the state has done in the prior year focusing on its progress and status within the change management

cycle. The strategic plan looks forward to those interventions and actions the state plans to undertake to address needs or buttress strengths they have discovered in their assessment activities. These two instruments serve as an application for annual SCIP funding as well as a source for data which are shared back with SCIP grantees to support their community learning and peer connections, to inform technical assistance, and support any reporting to Congress and others. Regarding updates to the self-assessment and strategic plan, a minor change was made early in 2025 to the self-assessment in response to Executive Orders, amounting to one optional topical box and a few drop-down categories being removed. Additionally, at this time, the following minor changes are proposed to the currently approved version of the self-assessment. These do not impact estimated time to respond.

- Brief questions were added on IV–E funding, self-assessment point of contact or publishing information, and additional collaborative partners.

- Dropdown categories have been added to reduce burden and improve data where ‘other’ was too often selected.

- Some questions about technical assistance states participated in were removed because alternative data sources were found that reduced burden.

No changes are proposed to the strategic plan.

The next application will be due June 30, 2026.

Respondents: We anticipate the highest state court of every state, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands to respond. All 53 jurisdictions currently participate in the program. One response from each jurisdiction is anticipated.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of responses per respondent	Average burden hours per response	Annual burden hours
Annual Self-Assessment	53	1	40	2,120
Strategic Plan	53	*.20	52	551.2
Estimated Total Annual Burden Hours				2,671.20

* The full Strategic Plan is completed every 5 years. In years when the Strategic Plan is not completed, respondents may spend minimal time updating relevant sections of the Strategic Plan. This is accounted for in the estimate for the Annual Self-Assessment.

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

In addition, the Children’s Bureau (CB) would specifically like to highlight:

(e) Regarding IV–E legal representation funding, in addition to asking an open-ended question about this topic in the Self-Assessment, would additional data elements around type of attorneys funded (e.g., agency, kin) or type of cases (e.g., only in foster care, in other civil matters) be useful? These data are not needed for SCIP application approval by CB but could be compiled

and shared back with grantees to support peer learning and connections. From your cost/benefit vantage, would this be worth including? And;

(f) Under section II of the Self-Assessment, for the optional project areas, each has a box on any training associated with the projects that includes more granular information such as the number of attendees, mode of delivery, and evaluation. This level of detail was formerly useful for CB in reviewing for grant compliance when there were three separate SCIP grants, one of which was for training. With the statutory merger of the SCIP grants, this level of detail is no longer needed for CB for grant compliance. These data can still be organized to share back with grantees to support peer learning and connections. From your cost/benefit vantage, would this be worth keeping or should we remove that level of detail? Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Authority: 42 U.S.C. 629h.

Mary C. Jones,
ACF/OPRE Certifying Officer.
