FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0972; FR ID 311979]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office

of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before November 10, 2025. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0972.
Title: Multi-Association Group (MAG) Plan Order, Parts 54 and 69 Filing Requirements for Regulation of Interstate Services of Non-Price Cap Incumbent Local Exchange Carriers and Interexchange Carriers.

Form Number(s): N/A.
Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit.

Number of Respondents and Responses: 201 respondents; 68 responses.

Estimated Time per Response: 20-90 hours.

Frequency of Response: On occasion and three-year reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority is contained in 47 U.S.C. 1–4, 10, 154(i), 154(j), and 201–205.

Total Annual Burden: 1,422 hours.

Total Annual Cost: \$1,040.

Needs and Uses: Following the passage of the Telecommunications Act of 1996 (1996 Act), the Commission adopted interstate access charge and universal service support reforms. These reforms were designed to establish a “pro-competitive, deregulatory national policy framework” for the United States telecommunications industry. Specifically, the Commission aligned the interstate access rate structure more closely with the manner in which costs are incurred, and created a universal service support mechanism for rate-of-return carriers (Interstate Common Line Support (ICLS)) to replace implicit support in interstate access charges with explicit support that is portable to all eligible telecommunications carriers. More recently, the Commission reformed this universal service support mechanism, enabling rate-of-return carriers to elect to receive fixed support or to continue to receive cost-based support. The new cost-based support is known as Connect America Fund Broadband Loop (CAF BLS) support.

To administer the CAF BLS support mechanism, the Universal Service Administrative Company collects demand, cost, and revenue data from rate-of-return carriers that did not elect to receive fixed support. In addition, rate-of-return carriers are required to submit demand, cost, and revenue data to the Commission to ensure that their cost-based rates are just and reasonable.

Federal Communications Commission.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0767.

Title: Sections 1.2110, 1.2111 and 1.2112, Auction and Licensing Disclosures—Ownership and Designated Entity Status.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit, Not-for-profit institutions, and State, local or tribal government.

Number of Respondents: 310 respondents; 310 responses.

Estimated Time per Response: 0.50 hours to 2 hours.

Frequency of Response: On occasion reporting requirement, Third party disclosure requirement, and Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection

is contained in sections 154(i) and 309(j) of the Communications Act, as amended, 47 U.S.C. 4(i) and 309(j).

Total Annual Burden: 470 hours.

Total Annual Costs: \$31,500.

Needs and Uses: A request for extension of this information collection (no change in requirements) will be submitted to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance from OMB. Beginning first on May 5, 1997, OMB approved under OMB 3060–0767 the Commission’s collections of information pursuant to sections 1.2110, 1.2111, and 1.2112 of the Commission’s rules, 47 CFR 1.2110, 1.2111, and 1.2112, and their predecessors, regarding ownership and designated entity status of parties involved with Commission licenses. The Commission collects this information in several contexts, including when determining the eligibility of applicants to participate in Commission auctions (including eligibility to claim designated entity benefits), the eligibility of parties to hold a Commission license/authorization (including eligibility for designated entity benefits), the eligibility of parties to whom licenses/authorizations are being assigned or transferred, and the repayment by license/authorization holders of the amount of bidding credits received in Commission auctions to avoid unjust enrichment. Applicants and licensees/authorization holders claiming eligibility for designated entity status are subject to audits and a record-keeping requirement regarding FCC-licensed service concerning such claims of eligibility, to confirm that their representations are, and remain, accurate. The collection of this information will enable the Commission to determine whether applicants are qualified to bid on and hold Commission licenses/authorizations and, if applicable, to receive designated entity benefits, and is designed to ensure the fairness of the auction, licensing, and license/authorization assignment and transfer processes. The information collected will be reviewed and, if warranted, referred to the Commission’s Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation. OMB has approved separately the routine collections of information pursuant to these Commission rules in applications to participate in Commission auctions) under OMB 3060–0600 (FCC Form 175), in
