

*Assistance to Foreign Atomic Energy Activities* at 10 Code of Federal Regulations (CFR) part 810 (part 810). The text of the Determination is reprinted below. Section 57 b.(2) of the *Atomic Energy Act of 1954* (AEA), as amended (42 U.S.C. 2077(b)(2)), enables peaceful nuclear trade by helping to assure that nuclear technologies exported from the United States will not be used for non-peaceful purposes.

Part 810 implements section 57 b.(2) of the AEA, pursuant to which the Secretary has granted a general authorization for certain categories of activities, which the Secretary has found to be non-inimical to the interest of the United States—including assistance or transfers of certain controlled technology to the “generally authorized destinations” listed in appendix A to part 810.

#### Signing Authority

This document of the Department of Energy was signed on September 12, 2025, by Richard Goorevich, Assistant Deputy Administrator, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy.

This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC on September 12, 2025.

**Treena V. Garrett,**

*Federal Register Liaison Officer, U.S. Department of Energy.*

#### APPENDIX

Set forth below is the full text of the Secretarial Determination:

#### **Determination and Authorization Pursuant to Section 57 b.(2) of the Atomic Energy Act of 1954, as Amended, Regarding Exports of Nuclear Technology and Assistance to the Philippines and Singapore**

Having considered the recommendation of the Department of Energy’s National Nuclear Security Administration (DOE/NNSA), the U.S. Department of State’s concurrence, and the consultations with the U.S. Departments of Defense and Commerce and the U.S. Nuclear Regulatory Commission, I have determined pursuant to section 57 b.(2) of the

*Atomic Energy Act of 1954*, as amended, that a general authorization under DOE’s regulations at 10 CFR Part 810 (Part 810) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore will not be inimical to the interest of the United States, provided that no sensitive nuclear technology or activities described in 10 CFR 810.7, *Activities Requiring Specific Authorization*, are involved.

Whether a destination is determined to be generally or specifically authorized depends on several factors, including the existence of a peaceful nuclear cooperation agreement (123 agreement) with the United States. The *Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of the Philippines Concerning Peaceful Uses of Nuclear Energy* was signed in San Francisco, California, on November 16, 2023, and entered into force on July 2, 2024. The *Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Singapore Concerning Peaceful Uses of Nuclear Energy* was signed in Singapore on July 31, 2024, and entered into force on December 12, 2024. As such, and in consideration of the relevant factors, I have determined that general authorization status for the Philippines and Singapore to cover exports of Part 810-controlled nuclear technology and assistance under 10 CFR 810.6(a), *Generally Authorized Activities*, meets the non-inimicality standard.

I therefore grant the Philippines and Singapore status as generally authorized destinations under 10 CFR 810.6(a).

Accordingly, as of the date on which this Determination is issued, all currently issued specific authorizations pursuant to 10 CFR 810.7(a) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore are eligible for the general authorization under 10 CFR 810.6(a), subject to the reporting requirements described in 10 CFR 810.12(e), *Reports*. Initial reporting in accordance with 10 CFR 810.12(e) may also serve to satisfy reporting requirements under 10 CFR 810.12(b) if specified accordingly. Activities subject to 10 CFR 810.7(b)–(c) continue to require specific authorization and separate reporting.

##### **Reliability Technical Conference; Supplemental Notice of Reliability Technical Conference**

As announced in the May 14, 2025, notice in this proceeding, the Federal Energy Regulatory Commission (Commission) will convene its annual Commissioner-led Reliability Technical Conference in the above-referenced

proceeding on Tuesday, October 21, 2025, to discuss policy issues related to the reliability and security of the Bulk-Power System. The conference will be held in-person at the Commission’s headquarters at 888 First Street NE, Washington, DC 20426 in the Kevin J. McIntyre Commission Meeting Room.

Please note that this conference will now take place from approximately 9:30 a.m. to 12:30 p.m. Eastern time.<sup>1</sup>

Supplemental notices will be issued prior to the conference with further details regarding the agenda. Information on this technical conference will also be posted on the Calendar of Events on the Commission’s website, [www.ferc.gov](http://www.ferc.gov), prior to the event. The Commission provides technical support for the free webcasts. Please call 202–502–8680 or email [customer@ferc.gov](mailto:customer@ferc.gov) if you have any questions.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to [accessibility@ferc.gov](mailto:accessibility@ferc.gov) or call toll free 1–866–208–3372 (voice) or 202–208–8659 (TTY) or send a fax to 202–208–2106 with the required accommodations.

For more information about this conference, please contact Lodie White at [Lodie.White@ferc.gov](mailto:Lodie.White@ferc.gov) or (202) 502–8453.

Dated: September 10, 2025.

**Debbie-Anne A. Reese,**

*Secretary.*

**BILLING CODE 6717-01-P**

#### DEPARTMENT OF ENERGY

##### **Federal Energy Regulatory Commission**

[Docket No. CP25–525–000]

##### **TTC Connector, LLC; Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed TTC Connector Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental impacts of the TTC Connector Project involving construction and operation of facilities by TTC Connector, LLC (TTC) in Colorado and Wharton Counties, Texas.

<sup>1</sup> As announced in a concurrently issued notice, Commission staff will convene a Technical Conference on Wildfire Risk Mitigation from approximately 1:30 p.m. to 4:30 p.m. Eastern time. See Notice of Technical Conference, Docket No. AD25–16–000 (issued September 10, 2025).

The Commission will use this environmental document in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission’s NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on October 10, 2025. Comments may be submitted in written form. Further details on how to submit comments are provided in the Public Participation section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the environmental document. Commission staff will consider all written comments during the preparation of the environmental document.

If you submitted comments on this project to the Commission before the opening of this docket on July 21, 2025 you will need to file those comments in Docket No. CP25–525–000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission’s current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company

representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable easement agreement. You are not required to enter into an agreement. However, if the Commission approves the project, the Natural Gas Act conveys the right of eminent domain to the company. Therefore, if you and the company do not reach an easement agreement, the pipeline company could initiate condemnation proceedings in court. In such instances, compensation would be determined by a judge in accordance with state law. The Commission does not subsequently grant, exercise, or oversee the exercise of that eminent domain authority. The courts have exclusive authority to handle eminent domain cases; the Commission has no jurisdiction over these matters.

TTC provided landowners with a fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?” which addresses typically asked questions, including the use of eminent domain and how to participate in the Commission’s proceedings. This fact sheet along with other landowner topics of interest are available for viewing on the FERC website ([www.ferc.gov](http://www.ferc.gov)) under the Natural Gas, Landowner Topics link.

#### Public Participation

There are three methods you can use to submit your comments to the Commission. Please carefully follow these instructions so that your comments are properly recorded. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov).

(1) You can file your comments electronically using the eComment feature, which is located on the Commission’s website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. Using eComment is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature, which is located on the Commission’s website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on “eRegister.” You will be asked to select the type of filing you are making; a comment on a particular project is considered a “Comment on a Filing”; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP25–525–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Additionally, the Commission offers a free service called eSubscription which makes it easy to stay informed of all issuances and submittals regarding the dockets/projects to which you subscribe. These instant email notifications are the fastest way to receive notification and provide a link to the document files which can reduce the amount of time you spend researching proceedings. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

The Commission’s Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

#### Summary of the Proposed Project

TTC proposes to construct and operate approximately 25 miles of 20-inch-diameter steel pipeline, connecting existing and proposed facilities in Colorado and Wharton Counties, Texas. The proposed project is known as the TTC Connector Project, and would provide 300,000 dekatherms (Dth) a day of firm capacity from Enbridge Inc.’s Tres Palacios Gas Storage (Tres Palacios) to interconnects with Energy Transfer Partners, LP’s Trunkline Pipeline, Gulf South Pipeline Company’s Coastal Bend Header Interconnect Station, and at a downstream point on Tres Palacios’ system.

The TTC Connector Project would consist of the following facilities:

- Tres Palacios Receipt Interconnect Point (connecting to an existing flanged valve), located within TTC Connector Compressor Station;
- TTC Connector Compressor Station, located immediately downstream of the existing Tres Palacios Receipt

Interconnect Point. The compression facility would be comprised of two compressor units, each having a name-plate horsepower (hp) of 5,500 hp;

- Tres Palacios Delivery Interconnect Station, located immediately downstream of the TTC Connector's Compressor Station and within the fenced limits of the Compressor Station;

- one mainline valve assembly, located at approximately milepost (MP) 13.1 on the pipeline;

- Trunkline Delivery Interconnect Station, located at approximately MP 23.8 on the pipeline; and

- Coastal Bend Header Delivery Interconnect Station, located at approximately MP 24.8 on the pipeline.

The general location of the project facilities is shown in appendix 1.<sup>1</sup>

#### Land Requirements for Construction

Construction of the proposed facilities would disturb about 167 acres of land for the aboveground facilities and the pipeline. Following construction, TTC would maintain about 90 acres for permanent operation of the project's facilities; the remaining acreage would be restored and revert to former uses.

#### NEPA Process and the Environmental Document

Any environmental document issued by the Commission will discuss impacts that could occur as a result of the construction and operation of the proposed project under the relevant general resource areas:

- geology and soils;
- water resources and wetlands;
- vegetation and wildlife;
- threatened and endangered species;
- cultural resources;
- land use;
- air quality and noise; and
- reliability and safety.

Commission staff will also evaluate reasonable alternatives to the proposed project or portions of the project and make recommendations on how to lessen or avoid impacts on the various resource areas. Your comments will help Commission staff identify and focus on the issues that might have an effect on the human environment and potentially eliminate others from further study and discussion in the environmental document.

Following this scoping period, Commission staff will determine

whether to prepare an Environmental Assessment (EA) or an Environmental Impact Statement (EIS). The EA or the EIS will present Commission staff's independent analysis of the issues. If Commission staff prepares an EA, a *Notice of Schedule for the Preparation of an Environmental Assessment* will be issued. The EA may be issued for an allotted public comment period. The Commission would consider timely comments on the EA before making its decision regarding the proposed project. If Commission staff prepares an EIS, a *Notice of Intent to Prepare an EIS/ Notice of Schedule* will be issued, which will open up an additional comment period. Staff will then prepare a draft EIS which will be issued for public comment. Commission staff will consider all timely comments received during the comment period on the draft EIS and revise the document, as necessary, before issuing a final EIS. Any EA or draft and final EIS will be available in electronic format in the public record through eLibrary<sup>2</sup> and the Commission's natural gas environmental documents web page (<https://www.ferc.gov/industries-data/natural-gas/environmental-documents>). If eSubscribed, you will receive instant email notification when the environmental document is issued.

With this notice, the Commission is asking agencies with jurisdiction by law and/or special expertise with respect to the environmental issues of this project to formally cooperate in the preparation of the environmental document.<sup>3</sup> Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the *Public Participation* section of this notice.

#### Consultation Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, the Commission is using this notice to initiate consultation with the applicable State Historic Preservation Office(s), and to solicit their views and those of other government agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.<sup>4</sup>

The environmental document for this project will document findings on the impacts on historic properties and summarize the status of consultations under section 106.

#### Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project and includes a mailing address with their comments. Commission staff will update the environmental mailing list as the analysis proceeds to ensure that Commission notices related to this environmental review are sent to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If you need to make changes to your name/address, or if you would like to remove your name from the mailing list, please complete one of the following steps:

(1) Send an email to [GasProjectAddressChange@ferc.gov](mailto:GasProjectAddressChange@ferc.gov) stating your request. You must include the docket number CP25-525-000 in your request. If you are requesting a change to your address, please be sure to include your name and the correct address. If you are requesting to delete your address from the mailing list, please include your name and address as it appeared on this notice. This email address is unable to accept comments.

OR  
(2) Return the attached "Mailing List Update Form" (appendix 2).

#### Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at [www.ferc.gov](http://www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number in the "Docket Number" field. Be sure you have selected an appropriate date range. For assistance,

historic properties as any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places.

<sup>1</sup> The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at [www.ferc.gov](http://www.ferc.gov) using the link called "eLibrary." For instructions on connecting to eLibrary, refer to the last page of this notice. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll free, (888) 208-3676 or TTY (202) 502-8659.

<sup>2</sup> For instructions on connecting to eLibrary, refer to the last page of this notice.

<sup>3</sup> Cooperating agency responsibilities are addressed in Section 107(a)(3) of NEPA (42 U.S.C. 4336(a)(3)).

<sup>4</sup> The Advisory Council on Historic Preservation's regulations are at Title 36, Code of Federal Regulations, Part 800. Those regulations define

please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

Public sessions or site visits will be posted on the Commission’s calendar located at <https://www.ferc.gov/news-events/events> along with other related information.

Dated: September 10, 2025.
