

*Assistance to Foreign Atomic Energy Activities* at 10 Code of Federal Regulations (CFR) part 810 (part 810). The text of the Determination is reprinted below. Section 57 b.(2) of the *Atomic Energy Act of 1954* (AEA), as amended (42 U.S.C. 2077(b)(2)), enables peaceful nuclear trade by helping to assure that nuclear technologies exported from the United States will not be used for non-peaceful purposes.

Part 810 implements section 57 b.(2) of the AEA, pursuant to which the Secretary has granted a general authorization for certain categories of activities, which the Secretary has found to be non-inimical to the interest of the United States—including assistance or transfers of certain controlled technology to the “generally authorized destinations” listed in appendix A to part 810.

#### Signing Authority

This document of the Department of Energy was signed on September 12, 2025, by Richard Goorevich, Assistant Deputy Administrator, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy.

This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC on September 12, 2025.

**Treena V. Garrett,**

*Federal Register Liaison Officer, U.S. Department of Energy.*

#### APPENDIX

Set forth below is the full text of the Secretarial Determination:

#### **Determination and Authorization Pursuant to Section 57 b.(2) of the Atomic Energy Act of 1954, as Amended, Regarding Exports of Nuclear Technology and Assistance to the Philippines and Singapore**

Having considered the recommendation of the Department of Energy’s National Nuclear Security Administration (DOE/NNSA), the U.S. Department of State’s concurrence, and the consultations with the U.S. Departments of Defense and Commerce and the U.S. Nuclear Regulatory Commission, I have determined pursuant to section 57 b.(2) of the

*Atomic Energy Act of 1954*, as amended, that a general authorization under DOE’s regulations at 10 CFR Part 810 (Part 810) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore will not be inimical to the interest of the United States, provided that no sensitive nuclear technology or activities described in 10 CFR 810.7, *Activities Requiring Specific Authorization*, are involved.

Whether a destination is determined to be generally or specifically authorized depends on several factors, including the existence of a peaceful nuclear cooperation agreement (123 agreement) with the United States. The *Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of the Philippines Concerning Peaceful Uses of Nuclear Energy* was signed in San Francisco, California, on November 16, 2023, and entered into force on July 2, 2024. The *Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Singapore Concerning Peaceful Uses of Nuclear Energy* was signed in Singapore on July 31, 2024, and entered into force on December 12, 2024. As such, and in consideration of the relevant factors, I have determined that general authorization status for the Philippines and Singapore to cover exports of Part 810-controlled nuclear technology and assistance under 10 CFR 810.6(a), *Generally Authorized Activities*, meets the non-inimicality standard.

I therefore grant the Philippines and Singapore status as generally authorized destinations under 10 CFR 810.6(a).

Accordingly, as of the date on which this Determination is issued, all currently issued specific authorizations pursuant to 10 CFR 810.7(a) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore are eligible for the general authorization under 10 CFR 810.6(a), subject to the reporting requirements described in 10 CFR 810.12(e), *Reports*. Initial reporting in accordance with 10 CFR 810.12(e) may also serve to satisfy reporting requirements under 10 CFR 810.12(b) if specified accordingly. Activities subject to 10 CFR 810.7(b)–(c) continue to require specific authorization and separate reporting.

##### **Reliability Technical Conference; Supplemental Notice of Reliability Technical Conference**

As announced in the May 14, 2025, notice in this proceeding, the Federal Energy Regulatory Commission (Commission) will convene its annual Commissioner-led Reliability Technical Conference in the above-referenced

proceeding on Tuesday, October 21, 2025, to discuss policy issues related to the reliability and security of the Bulk-Power System. The conference will be held in-person at the Commission’s headquarters at 888 First Street NE, Washington, DC 20426 in the Kevin J. McIntyre Commission Meeting Room.

Please note that this conference will now take place from approximately 9:30 a.m. to 12:30 p.m. Eastern time.<sup>1</sup>

Supplemental notices will be issued prior to the conference with further details regarding the agenda. Information on this technical conference will also be posted on the Calendar of Events on the Commission’s website, [www.ferc.gov](http://www.ferc.gov), prior to the event. The Commission provides technical support for the free webcasts. Please call 202–502–8680 or email [customer@ferc.gov](mailto:customer@ferc.gov) if you have any questions.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to [accessibility@ferc.gov](mailto:accessibility@ferc.gov) or call toll free 1–866–208–3372 (voice) or 202–208–8659 (TTY) or send a fax to 202–208–2106 with the required accommodations.

For more information about this conference, please contact Lodie White at [Lodie.White@ferc.gov](mailto:Lodie.White@ferc.gov) or (202) 502–8453.

Dated: September 10, 2025.
