SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB
Number: Investigative Interview Survey;
 OMB Control Number 0705-0004.

Type of Request: Revision.
Number of Respondents: 35,300.
Responses per Respondent: 1.
Annual Responses: 35,300.
Average Burden per Response: 6
 minutes.

Annual Burden Hours: 3,530.
Needs and Uses: The information
 collected on the Investigative Interview
 Survey (IIS) form is used to evaluate the
 investigative procedure exhibited by the
 investigator, the investigator's
 professionalism, and the information
 discussed and reported by Federal or
 Federal contract investigator.

Completion of the IIS is voluntary. No
 personally identifiable information (PII)
 is collected in the IIS, however, there
 may be some instances when a
 respondent reports PII despite that
 survey instructions reflect not to
 provide PII. The IIS is mailed by
 Defense Counterintelligence Security
 Agency (DCSA), to a random sampling
 of record and personal sources who
 were contacted during the background
 investigation process by investigators
 performing fieldwork. The IIS is used as
 a quality control instrument designed to
 ensure the accuracy and integrity of the
 investigative product. In addition to the
 preformatted response options, DCSA
 invites the recipients to respond with
 any other relevant comments or
 suggestions. Results from the IIS are
 disseminated internally within the
 agency.

Affected Public: Individuals or
 households.

Frequency: On occasion.
Respondent's Obligation: Voluntary.

Title; Associated Form; and OMB
Number: Marine Corps Installations
 Pacific School Visit Program
 Application; MCIPAC-MCBB Form
 5726/1; OMB Control Number 0712-
 SVPA.

Type of Request: New.
Number of Respondents: 15.
Responses per Respondent: 1.
Annual Responses: 15.
Average Burden per Response: 1 hour.
Annual Burden Hours: 15.

Needs and Uses: Information
 collection via the MCIPAC-MCBB Form
 5726/1, "School Visit Program
 Application," is necessary to allow local
 Japanese students to request to visit
 Marine Corps Bases in Okinawa. The
 information will be used as part of the
 school visit program to tailor the
 specific needs of students when visiting
 U.S. bases. The form is prepared by the
 MCIPAC-MCBB, G-7 School Visit
 Program Manager and filled out by the
 requesting school's staff facilitators.

The MCIPAC-MCBB G-7 facilitates a
 school visit program for Host Nation
 Japanese school students. The program
 is designed to allow school age children
 an opportunity to experience American
 culture and familiarize themselves with
 the mission of the U.S. Military. School
 administrators contact the G-7 to start
 the application process. Administrators
 are sent the PDF School Visit Program
 Application form via email and may
 complete it electronically or print it out
 to fill in the required information. Most
 respondents complete the form
 electronically and return it via email. In
 all other cases, the form is hand-
 delivered to the G-7 office. The

successful effect of the information
 collection is the facilitation of a school
 visit that is tailored to the needs and
 desires of the school administrators and
 students.

Assistance to Foreign Atomic Energy Activities at 10 Code of Federal Regulations (CFR) part 810 (part 810). The text of the Determination is reprinted below. Section 57 b.(2) of the *Atomic Energy Act of 1954* (AEA), as amended (42 U.S.C. 2077(b)(2)), enables peaceful nuclear trade by helping to assure that nuclear technologies exported from the United States will not be used for non-peaceful purposes.

Part 810 implements section 57 b.(2) of the AEA, pursuant to which the Secretary has granted a general authorization for certain categories of activities, which the Secretary has found to be non-inimical to the interest of the United States—including assistance or transfers of certain controlled technology to the “generally authorized destinations” listed in appendix A to part 810.

Signing Authority

This document of the Department of Energy was signed on September 12, 2025, by Richard Goorevich, Assistant Deputy Administrator, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy.

This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC on September 12, 2025.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

APPENDIX

Set forth below is the full text of the Secretarial Determination:

Determination and Authorization Pursuant to Section 57 b.(2) of the Atomic Energy Act of 1954, as Amended, Regarding Exports of Nuclear Technology and Assistance to the Philippines and Singapore

Having considered the recommendation of the Department of Energy’s National Nuclear Security Administration (DOE/NNSA), the U.S. Department of State’s concurrence, and the consultations with the U.S. Departments of Defense and Commerce and the U.S. Nuclear Regulatory Commission, I have determined pursuant to section 57 b.(2) of the

Atomic Energy Act of 1954, as amended, that a general authorization under DOE’s regulations at 10 CFR Part 810 (Part 810) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore will not be inimical to the interest of the United States, provided that no sensitive nuclear technology or activities described in 10 CFR 810.7, *Activities Requiring Specific Authorization*, are involved.

Whether a destination is determined to be generally or specifically authorized depends on several factors, including the existence of a peaceful nuclear cooperation agreement (123 agreement) with the United States. The *Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of the Philippines Concerning Peaceful Uses of Nuclear Energy* was signed in San Francisco, California, on November 16, 2023, and entered into force on July 2, 2024. The *Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Singapore Concerning Peaceful Uses of Nuclear Energy* was signed in Singapore on July 31, 2024, and entered into force on December 12, 2024. As such, and in consideration of the relevant factors, I have determined that general authorization status for the Philippines and Singapore to cover exports of Part 810-controlled nuclear technology and assistance under 10 CFR 810.6(a), *Generally Authorized Activities*, meets the non-inimicality standard.

I therefore grant the Philippines and Singapore status as generally authorized destinations under 10 CFR 810.6(a).

Accordingly, as of the date on which this Determination is issued, all currently issued specific authorizations pursuant to 10 CFR 810.7(a) for exports of Part 810-controlled nuclear technology and assistance to the Philippines and Singapore are eligible for the general authorization under 10 CFR 810.6(a), subject to the reporting requirements described in 10 CFR 810.12(e), *Reports*. Initial reporting in accordance with 10 CFR 810.12(e) may also serve to satisfy reporting requirements under 10 CFR 810.12(b) if specified accordingly. Activities subject to 10 CFR 810.7(b)–(c) continue to require specific authorization and separate reporting.
