Proposed Project

Performance Monitoring of CDC’s Comprehensive Suicide Prevention Program (OMB Control No. 0920-1368, Exp. 9/30/2025)—Revision—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

This is a Revision request for the currently approved Performance Monitoring of CDC’s Comprehensive Suicide Prevention Program OMB Control No. 0920-1368, Exp. 9/30/2025). The Centers for Disease Control

and Prevention (CDC) seeks OMB approval for an additional three years to continue the collection of information from recipients funded under the Comprehensive Suicide Prevention Program cooperative agreement (CE22-2204), hereafter known as CSP. This Revision includes the addition of a new instrument to monitor syndromic surveillance data on a quarterly schedule. This enables CSP recipients to provide quarterly updates to partners in their individual jurisdictions, describing trends in syndromic surveillance data, including upticks or changes in patterns or groups impacted to promote tailored suicide prevention outreach. Quarterly reporting ensures CDC is apprised of trends in suicide related emergency department data within jurisdictions.

Recipients will continue to report progress and activity information to CDC on an annual schedule using a web-based Partners’ Portal. The Partners’ Portal allows recipients to fulfill their annual reporting obligations efficiently by employing user-friendly, easily accessible web-based instruments to collect necessary information for both progress reports and continuation applications including work plans. This approach enables recipients to save pertinent information from one reporting period to the next and reduces the administrative burden on the annual

continuation application and the performance monitoring process. Awardee program staff can review the completeness of data needed to generate required reports, enter basic summary data for reports annually, and finalize and save required reports for upload into other reporting systems, as required.

The information collection provides crucial data for program performance monitoring and allows NCIPC to respond to frequent inquiries about suicide prevention work from the Department of Health and Human Services, the White House, Congress and other interest-holders, as well as work towards our vision of “No lives lost to suicide” and our mission to use data, science, and partnerships to identify and implement effective suicide prevention strategies to foster healthy and resilient communities across the United States, per our suicide prevention strategic plan. Information to be collected will also strengthen CDC’s ability to monitor awardee progress, identify trends, provide data-driven technical assistance, and disseminate the most current surveillance data on suicide and suicide attempts.

CDC requests OMB approval for an estimated 480 annual burden hours. There are no costs to respondents other than their time.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Central Authority Payment Service (New Collection)

AGENCY: Office of Child Support Enforcement, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Child Support Enforcement (OCSE), Administration of Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is requesting the Office of Management and Budget to approve a new information collection, Central Authority Payment Service (CAP). Participating state child support agencies (CSAs) and foreign authorities will use CAP to send or receive child support payments electronically.

DATES: *Comments due November 21, 2025.*

ADDRESSES: In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above. You can obtain copies of the

proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: OCSE is the federal agency that oversees the national child support enforcement program and is the U.S. Central Authority for international child support. OCSE is mandated to facilitate locating noncustodial parents, establishing paternity, establishing and enforcing support orders, modifying orders, and collecting and disbursing child support payments. It is also required to provide technical assistance and training to state CSAs to process and enforce national and international child support.

To help states eliminate the burden of sending child support payments

through the international Automated Clearing House or by wire, OCSE developed CAP, which is a centralized and secure hub for participating states to send international child support payments. After consolidating payments from states, CAP sends one payment to each foreign authority through established federal international

electronic payment channels. Payments are converted to applicable currency and distributed by the foreign authority, according to secure case and payment details provided through CAP, to the custodial parent in their country. To participate, states and foreign authorities must enroll in the CAP service to transmit or receive payments.

RESPONDENTS: State CSAs and the foreign authorities.

Annual Burden Estimates: Based on the current enrollment status, OCSE anticipates 46 states and 13 foreign authorities to implement CAP or maintain their CAP contacts over the next three years.

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
CAP Service State Contact Form	46	1	0.08	3.68
CAP Service Foreign Authority Contact Form	13	1	0.12	1.56
Estimated Total Burden Hours	5.24

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Authority: 42 U.S.C. 652(n), 652(a)(7), and 659A(c)(3).

Mary C. Jones,

ACF/OPRE Certifying Officer.
