The Peace Corps conducted this survey in 2023, which proved beneficial in measuring general awareness and affinity for the Peace Corps; drivers, barriers, and motivations related to the application process; and perceptions of our audiences following the COVID-19 pandemic. Similar to when the survey was conducted in 2023, the Peace Corps will collect information to help broaden the pool of potential Volunteers and engage new audiences—this time to help meet the agency's goal of sending 8,000 qualified Volunteers overseas by 2030. The information collection will also be used to gather insights to identify key audience segments and help ensure the efficiency and success of future marketing efforts by:

- Identifying levels of awareness, knowledge, attitudes, and opinions about the Peace Corps among the general U.S. public and targeted audience segments;
- Collecting insights to inform communications, education, and outreach strategies by understanding which themes resonate most with different audience segments; and
- Determining the best channels for communication.

The Office of Communications will conduct this survey twice for optimal monitoring and evaluation.
