

identification of the production lot; (3) the name of the person or firm issuing the certificate; (4) the location where the product was principally assembled; and (5) the month and year the product was manufactured. See 16 CFR 1205.35(a)–(b).

**Estimated Number of Respondents:** CPSC estimates approximately 34 lawn-mower suppliers will respond to the collection annually.

**Estimated Time per Response:** Based on subject matter knowledge and previous experience during compliance inspections conducted for lawn mowers subject to the standard, CPSC estimates that each respondent expends eight hours daily engaged in compiling and maintaining a testing record to support the certification of a production lot of lawn mowers. This may involve testing approximately five to six lawn mowers per day and recording test results in some form of a retrievable record system. CPSC assumes testing is performed over 130 estimated yearly production days, based on a highly seasonal production period. Thus, total hour burden to respondents for the recordkeeping associated with testing to support certification is estimated to be 1,040 hours per respondent ( $8 \times 130$ ). For the specified labeling requirements, the information should be readily available, and it could take a manufacturer an additional hour per production day to collect the information and place it on the label. Therefore, an additional 130 hours per respondent have been added to the total burden, which is 1,170 hours ( $1,040 + 130$ ).

**Total Estimated Annual Burden:** CPSC estimates that the annual burden for compiling and maintaining a testing record to support certification is estimated to be 35,360 hours ( $34 \text{ respondents} \times 1,040 \text{ hours}$ ). The estimated additional burden related to labeling is 4,420 hours. The total annual burden hours related to recordkeeping associated with certification, and labeling are estimated to be 39,780 hours for the collection of information annually ( $35,360 + 4,420$ ).

**Total Estimated Annual Cost to Respondents:** CPSC estimates that the cost of collecting information related to testing is approximately \$2,729,438.40 based on  $35,360 \text{ hours} \times \$77.19$  (total compensation for management, professional, and related workers in goods-producing industries) and annual cost burden related to labeling is estimated to be \$183,827.80 based on  $4,420 \text{ hours} \times \$41.59$  (total compensation for all sales and office workers in goods-producing

industries).<sup>1</sup> Therefore, total annual burden costs related to the information collection are estimated to be \$2,913,266.20 ( $\$2,729,438.40 + \$183,827.80$ ).

#### Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

#### Submission for OMB Review; Comment Request

**AGENCY:** Office of the Assistant Secretary of Defense for Health Affairs (OASD(HA)), Department of Defense (DoD).

**ACTION:** 30-Day information collection notice.

**SUMMARY:** The DoD has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

**DATES:** Consideration will be given to all comments received by October 23, 2025.

**ADDRESSES:** Written comments and recommendations for the proposed

#### SUPPLEMENTARY INFORMATION:

**Title; Associated Form; and OMB Number:** TRICARE Prime Enrollment, Disenrollment, and Change of Primary Care Manager (PCM); DD 2876; OMB Control Number 0720–0008.

**Type of Request:** Renewal.

**Number of Respondents:** 953,841.

**Responses per Respondent:** 2.

**Annual Responses:** 1,907,682.

**Average Burden per Response:** 15 minutes.

**Annual Burden Hours:** 476,920.5.

**Needs and Uses:** The information collection is necessary to obtain non-active-duty TRICARE beneficiary's personal information, which is needed to (1) Complete enrollment into TRICARE Prime health plan, (2) change the beneficiary's enrollment (new Primary Care Manager, enrolled region, add/drop a dependent, etc.), or (3) disenroll the beneficiary. This information is required to ensure the beneficiary's benefits and claims are administered based on their plan of choice. Without this information, each non-active-duty TRICARE beneficiary is automatically defaulted into direct care only, limiting their health care options to military hospitals and clinics. These beneficiaries would have no TRICARE coverage when using the TRICARE network of providers for services not available at their local military hospital or clinic.

**Affected Public:** Individuals or households.

**Frequency:** As required.

**Respondent's Obligation:** Voluntary.

**DOD Clearance Officer:** Mr. Reginald Lucas.

Dated: September 19, 2025.
