Southern Natural Gas Company, L.L.C.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on September 12, 2025, Southern Natural Gas Company, L.L.C. (SNG), 569 Brookwood Village, Suite 600, Birmingham, Alabama 35209, filed in the above referenced docket, a prior notice request pursuant to sections 157.205 and 157.208 of the Commission's regulations under the

Natural Gas Act (NGA) and SNG's blanket certificate issued in Docket No. CP82-406-000 for authorization to reduce the maximum allowable operating pressure (MAOP) of its six-inch-diameter Chattanooga-Rome-Calhoun Crossover (CRCC) pipeline in Gordon County, Georgia and to operate the CRCC at a lower MAOP.

Specifically, SNG proposes to relocate the site of existing regulator facilities, which currently receives gas from the Chattanooga pipeline operating at 1,200 pounds per square inch gauge (psig), to a new site on the Rome-Calhoun pipeline that operates at 500 psig. SNG states that the relocation of pressure regulation and reduction of MAOP of the CRCC will better align delivery pressure with customer requirements while minimizing equipment and maintenance needs at the delivery point. SNG estimates the cost of the project to be \$483,115, all as more fully set forth in the request which is on file with the Commission and open to public inspection.
