

Importers will be required to report on the Form 7501 the steel country of melt and pour and aluminum countries of smelt and cast for imports under those steel and aluminum HTS classifications subject to the Commerce Department's steel and aluminum import license applications, and where applicable, the Section 232 steel and aluminum measures.

These data fields will substantially align the Form 7501 reporting requirements with the Commerce Department's existing reporting requirements for steel melt and pour and aluminum smelt and cast countries for steel and aluminum import license applications under 19 CFR 360.103(c)(1) and 19 CFR 361.103(c)(1). The aluminum and steel license application information is used by the Commerce Department for monitoring of anticipated imports of certain aluminum and steel products into the United States. The Form 7501 data is used by CBP to determine, when imports are entered for consumption, the proper amount of duties, applicable fees, taxes, and imports subject to quota.

These data fields are also required to enforce the tariff rate quotas for imported steel and aluminum established by the following Presidential Proclamations under section 232 of the Trade Expansion Act of 1962, as amended: for products of the European Union, Proclamation 10327 of December 27, 2021 (87 FR 1, January 3, 2022) and Proclamation 10328 of December 27, 2021 (87 FR 11, January 3, 2022); for products of Japan (steel-only), Proclamation 10356 of March 31, 2022 (87 FR 19351, April 1, 2022); and for products of the United Kingdom, Proclamation 10405 of May 31, 2022 (87 FR 33583, June 3, 2022) and Proclamation 10406 of May 31, 2022 (87 FR 33591, June 3, 2022); and any amendments to these Proclamations.
