

heroin, over 353 pounds of methamphetamine, and over five pounds of fentanyl.

Since the President took office, DHS has delivered the most secure border in history. More can and must be done, however. As the statistics cited above demonstrate, the Del Rio Sector is an area of high illegal entry where illegal aliens regularly attempt to enter the United States and smuggle illicit drugs, and given my mandate to achieve and maintain operational control of the border, I must use my authority under section 102 of IIRIRA to install additional barriers and roads in the Del Rio Sector. Therefore, DHS will take immediate action to construct additional barriers and roads in a segment of the border in the Del Rio Sector. The segment where such construction will occur is referred to herein as the “project area,” which is more specifically described in Section 2 below.

Section 2

I determine that the following area in the vicinity of the United States border, located in the State of Texas within the U. S. Border Patrol Del Rio Sector, is an area of high illegal entry (the “project area”): Within the Del Rio Sector, starting at approximately GPS point 29.09, – 100.67 and extending south and east to approximately GPS point 28.47, – 100.36.

There is presently an acute and immediate need to construct additional physical barriers and roads in the vicinity of the border of the United States in order to prevent unlawful entries into the United States in the project area pursuant to section 102(a) and 102(b) of IIRIRA. In order to ensure the expeditious construction of additional physical barriers and roads in the project area, I have determined that it is necessary that I exercise the authority that is vested in me by section 102(c) of IIRIRA.

Accordingly, pursuant to section 102(c) of IIRIRA, I hereby waive in their entirety, with respect to the construction of physical barriers and roads (including, but not limited to, accessing the project areas, creating and using staging areas, the conduct of earthwork, excavation, fill, and site preparation, and installation and upkeep of physical barriers, roads, supporting elements, drainage, erosion controls, safety features, lighting, cameras, and sensors) in the project area, all of the following statutes, including all federal, state, or other laws, regulations, and legal requirements of, deriving from, or related to the subject of, the following

statutes, as amended: The National Environmental Policy Act (Pub. L. 91–190, 83 Stat. 852 (Jan. 1, 1970) (42 U.S.C. 4321 *et seq.*)); the Endangered Species Act (Pub.
