

National Firearms Act (NFA) firearm, and who qualify to do so under one of the statutory tax exemptions, must use ATF Form 5320.5, Application to Transfer and Register NFA Firearm (Tax-Exempt) ("Form 5"). ATF uses the information to determine legality of the firearm transfer under federal, state, and local law. Applicants also use the form to claim an exemption from paying the otherwise-required transfer tax as provided and provide the information necessary to support their claim. In addition, ATF uses Form 5 to effect a transfer resulting from operation of law, for example, a firearm in an estate being transferred to a beneficiary, or a firearm being transferred as a result of bankruptcy. Persons may also use Form 5 to facilitate temporarily conveying a firearm for repair, and its subsequent return.

5. *Obligation to respond:* required to obtain/retain a benefit, comply with law.

6. *Total estimated number of respondents:* 17,322 respondents.

7. *Estimated time per respondent:* 12 minutes.

8. *Frequency:* once annually.

9. *Total estimated annual time burden:* 3,464 total hours.

10. *Total estimated annual other costs burden:* \$79,672.

Revisions to This Information Collection

Information Collection (IC) OMB 1140-0015 is being revised to include an increase in respondents from 10,591 three years ago to 17,322 in 2025, an increase of 6,731 respondents since the last renewal. In addition, the time burden has decreased from 30 to 12 minutes due to developments in technology allowing electronic forms, reducing the number of respondents who must provide fingerprints and reducing the number of copies, allowing electronic fingerprints on-site, reducing respondents who must provide photographs, allowing cell phone photographs, and allowing photocopied identification cards instead, all submitted electronically. In addition, the requirement to complete an extra copy of the form and submit it to local law enforcement is going away, and the fillable forms have made it possible to populate the second copy at the same time as the first copy, both of which reduce the time burden even more. As a result, there has been a corresponding decrease in the burden hours per respondent, from .5 hours to .2 hours each, resulting in a reduction in total annual burden hours from 5,350 to 3,464, a decrease of 1,866 hours.

In addition, the agency is making the following minor changes to Form 5 in anticipation of upcoming regulatory changes, and to make the form easier to read, correct minor errors, and adjust for updated technology:

- revising the title to be more clear
- removing the photo box on the form to allow the option to attach either a passport-style photo or a copy of a photo identification document
- combining race/ethnicity items
- allowing additional types of electronic/digital signatures
- revising the fillable pdf form to link copy 1 and copy 2 so that copy 2 gets populated as the copy 1 is filled in, except for check boxes and signature
- adding references to eForms and *pay.gov*
- adding reference to the refund process
- removing the CLEO notification requirement and copy
- adding instructions for married couples jointly making, transferring, and registering a firearm, as an 'other legal entity'
- correcting typographical/grammar items
- adding email addresses for different questions: *nfa@atf.gov*, *ipb@atf.gov*, & *nfafax@atf.gov*

Public Comments

ATF received one set of comments on this information collection during the 60-day notice and comment period. The commenter, a dealer in NFA firearms, submitted a joint comment on ICRs 1140-0011, 1140-0014, 1140-0015, and 1140-0107, expressing support for the changes ATF is making to ATF Form 5320.1 ("Form 1") covered by this ICR, and Forms 5320.4, 5320.5, and 5320.23.

Comment Summary

Specifically, the commenter stated that removing the requirement to send a copy of the form to CLEOs was a welcome change, and would alleviate concerns the commenter said CLEOs have about inadvertently creating a firearms registry in their office due to these forms. The commenter also advocated that all attempts to modernize the form, including allowing digital signatures, should be pursued and are also long overdue. Prohibiting digital signatures, the commenter added, imposes an unnecessary burden on applicants. The commenter also expressed support for the changes allowing a copy of photo IDs instead of requiring a 2" x 2" photograph and removing the requirement to submit fingerprints with each application, stating that neither requirement is needed even though required by statute.

ATF Response

ATF appreciates the feedback from this commenter on the proposed changes. It is helpful to receive feedback, positive or negative, from persons impacted by our processes so we can make them more user-friendly and efficient. In response to the commenter's suggestion that ATF should make all efforts to modernize these NFA forms, we think the following information will be helpful. The proposed changes to these forms reflect larger changes the agency is making to its NFA regulations and across other NFA forms, as well. These changes have been developing for some time and are projected to take effect during the next year. In addition to allowing electronic signatures, ATF is also making its NFA forms electronically fillable as the ICRs come up for renewal, and expects to move to solely electronic forms in 2026. In addition, NFA is continuing to build the rest of its forms into its eForms platform, so applicants can complete and submit the forms online.
