

rates and the gaming operations are required to apply those rates to their revenues, compute the fees to be paid, report the revenues, and remit the fees to the Commission. All gaming operations within the jurisdiction of the Commission are required to self-administer the provisions of these regulations, and report and pay any fees that are due to the Commission. It is necessary for the Commission to maintain the fee rate to ensure that the agency has sufficient funding to fully meet its statutory and regulatory responsibilities. In addition, it is critical for the Commission to maintain constantly an adequate transition carryover balance to cover any cash flow variations.

Pursuant to 25 CFR 514, the Commission must also review annually the costs involved in processing fingerprint cards and set a fee based on fees charged by the Federal Bureau of Investigation and costs incurred by the Commission. Commission costs include Commission personnel, supplies, equipment & infrastructure costs, and postage to submit the results to the requesting tribe. In FY26 the Commission will continue its commitment to take necessary measures to comply with the FBI CJIS requirements which ensure the NIGC and participating tribes can continue to use FBI criminal history report information (CHRI) to assist in determining a key employee or primary management official's eligibility for a gaming license.

To ensure compliance with the President issued Executive Order 14247, "Modernizing Payments To and From America's Bank Account" which "mandat[ed] the transition to electronic payments for all Federal disbursements and receipts by digitizing payments", the NIGC is in the process of phasing out paper check receipts and transitioning to receiving all payments via *Pay.gov*, a secure digital method. Along with other Federal Government bureaus and agencies, all payments made to the NIGC shall be submitted and processed electronically using the *Pay.gov* website. Tribes can visit the Commission's website at *www.nigc.gov* for details on how to sign into the system, information required for submission, and how to change and correct submissions.

OMB Number: 3133-0125.

Title: Appraisals, 12 CFR part 722.

Type of Review: Extension of a previously approved collection.

Abstract: Title XI of the Financial Institutions, Reform, Recovery and Enforcement Act of 1989 (FIRREA) was enacted to protect federal financial and public policy interests in real estate related transactions. To achieve this purpose, the statute directed the NCUA to adopt standards for the performance of real estate appraisals in connection with federally related transactions. FIRREA requires that appraisals be maintained in writing and meet certain minimum standards. NCUA's regulation Part 722 carries out the statutory requirements. The information collection activity requires a credit union to obtain a written appraisal on federally related transactions or maintain written support of the estimated market value for transactions not required to have an appraisal. The use of their information by credit unions and NCUA helps ensure that federally insured credit unions are not exposed to

risk of loss from inadequate appraisals. New requirements are related to an interagency rule on quality control standards mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) for the use of automated valuation models (AVMs) by mortgage originators and secondary market issuers in determining the collateral worth of a mortgage secured by a consumer's principal dwelling. Under the proposal, the agencies would require institutions that engage in certain credit decisions or securitization determinations to adopt policies, practices, procedures, and control systems to ensure that AVMs used in these transactions to determine the value of mortgage collateral adhere to quality control standards designed to ensure a high level of confidence in the estimates produced by AVMs; protect against the manipulation of data; seek to avoid conflicts of interest; require random sample testing and reviews; and comply with applicable nondiscrimination laws.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. chapter 35), provides the public with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Agency assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Agency's information collection requirements and provide the requested data in the desired format. This information collection was previously published in the **Federal Register** on June 25, 2025, 90 FR 27058, and closed August 25, 2025. One (1) comment was received. The commenter recommended not delaying the implementation of the national healthcare system after experiencing denial of a claim for medical services. OPM has determined this comment is outside the scope of the ICR.

OPM is soliciting comments on behalf of OMB for the proposed information collection request (ICR) that is described below. The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Abstract

OPM uses the CAHPS results as part of the FEHB Plan Performance Assessment (PPA). The PPA enables a consistent, objective evaluation of carrier performance and also provides more transparency for enrollees. This assessment uses a discrete set of quantifiable measures to examine key aspects of performance in the areas of clinical quality, customer service and resource use. Six CAHPS measures are part of this discrete set of quantifiable measures.

Taken together with more traditional assessments of contract administration, these measures help ensure that enrollees receive high quality affordable healthcare and a positive customer experience. The PPA is linked to carrier profit and adjustment factors. FEHB contracts include language to incorporate the PPA as a determinant of the Service Charge or Performance Adjustment.
