

certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR describes the burden activities for the electronic collection of information for the pre-award burden activity for creating a work plan and the post-award and after-the-grant award activities related to reporting accomplishments to implement EPA's Federal Insecticide Fungicide and Rodenticide Act (FIFRA) State and Tribal Assistance Grant (STAG) program (7 U.S.C. 136u). This ICR assesses the reporting burden for FIFRA activities in the STAG program that is also covered in an ICR titled "General Performance Reporting for Assistance Programs" (EPA ICR No. 2802.01; OMB Control No. 2090-0038). The Agency grant ICR, ((EPA ICR No. 2802.01; OMB Control No. 2090-0038) collects information to track progress made by the Agency's financial assistance programs, with respect to *effectiveness* (e.g., the extent to which projects achieve their objectives, goals, and targets), and *efficiency* (e.g., the extent to which projects deliver activities and outputs on schedule and within budget). The reporting requirements for all recipients of EPA grants or cooperative agreements (assistance agreements) is covered by ICR, titled "EPA's General Regulation for Assistance Programs ICR" (EPA ICR No. 0938.18; OMB Control No. 2030-0020).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form number(s): 5700.

Respondents/affected entities: Entities potentially affected by this ICR include state, local governments, Indian tribes, and U.S. territories that are grantees of Federal funds participating in the FIFRA STAG program. The North American Industrial Classification System (NAICS) codes are identified in question 12 of the ICR.

Respondent's obligation to respond: Mandatory. 2 CFR 1500.

Estimated number of potential respondents: 80.

Frequency of response: Biannually.

Total estimated average number of responses for each respondent: 2.

Total estimated burden: 25,872 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$2,580,269 (per year), includes \$0 annualized capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is no change in the number of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. The only change is the update of the wage rates for both respondents and the Agency. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
