

The Department assures the public that every application undergoes adequate vetting. Furthermore, the Department clarifies that the cost to process the DS-260 is not \$156 billion, as the comment states, but rather \$94,022,024 in federal government expenditures. Consular fees are generally set based on the policy of full cost recovery, which means the full cost is offset by the DS-260 application fee. The net cost to the American taxpayer is \$0.

*Deputy Assistant Secretary for Visa Services,
Bureau of Consular Affairs, Department of State.*

Title: FAA Entry Point Filing Form—International Registry.

Form Numbers: AC Form 8050-135.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 24, 2025 (90 FR 26900). The information collected is necessary to obtain an authorization code to transmit information to the International Registry. The Convention on International Interest in Mobile Equipment, as modified by the Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Aircraft Equipment (Cape Town Treaty), provides for the creation and sustainment of the International Registry. The International Registry is an electronic registry system that works in tandem with the current system operated by the Federal Aviation Administration, Civil Aviation Registry, Aircraft Registration Branch (Registry) for the United States.

Congress has designated the Registry as the exclusive United States Entry Point for transmissions to the International Registry. To transmit certain types of interests or prospective interests to the International Registry, interested parties must file a completed FAA Entry Point Filing Form—International Registry, AC Form 8050-135, with the Registry. Upon receipt of the completed form, the Registry issues a unique authorization code. The submission of the information in question is not an FAA requirement for aircraft registration. Its sole purpose is to obtain an authorization code to transmit information to the International Registry. The FAA’s regulations addressing the transmission of information to the International Registry are found under Title 14 of the Code of Federal Regulations, Part 49 Subpart F.

Respondents: 20,876 filings in FY2024.
Frequency: On occasion.
Estimated Average Burden per Response: 30 minutes.
