

FMS Host Site Module: As with the FMS Application Module, the revised number of host site applicants comes from FMS system reporting for the most recent approval period. New estimated annual number of host site applicants is decreased from 970 to 560 responses. Previously, estimates for the FMS Host Site Module's burden per response were based on the time it would take to fill out the form itself, assuming that responses were largely prepared or known ahead of time. The new estimate,

created in part with feedback from former host site applicants, captures the true extent of burden imposed by discussing, drafting, reviewing, and submitting responses to these applications. Average burden per response is increased from 75 to 461 minutes.

FMS Activity Tracking Module: Given the significant reduction in the scope and use of this module, the estimated annual number of activity tracking respondents is decreased from 555 to 100. No change to time burden per

response is requested, as CDC assessed the currently approved time burden to be a conservative, accurate estimate.

FMS Alumni Directory: Alumni Module is proposed for deactivation and thus has no burden in this Revision request.

Across these burden changes, compared to the currently approved burden of 13,477 hours annually, the new proposed burden is 12,655 hours. There are no costs to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hr)	Total burden (in hr)
Fellowship Applicants	FMS Application Module.	2,500	1	163/60	6,792
Reference Letter Writers	FMS Application Module.	5,000	1	15/60	1,250
Subset of FMS Fellowship Applicants (FMS Application Writing Samples).	FMS Application Module.	220	1	30/60	110
Public Health Agency or Organization Staff	FMS Host Site Module	560	1	461/60	4,303
Public Health Agency or Organization Staff	FMS Activity Tracking Module.	100	2	30/60	200
Fellowship Alumni	FMS Alumni Directory	0	1	37/60	0
Total	12,655

Centers for Disease Control and Prevention

[60Day-25-0255; Docket No. CDC-2025-0717]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction

Act of 1995. This notice invites comment on a proposed information collection project titled Resources and Services Database of the CDC National Prevention Information Network (NPIN). The NPIN Resources and Services Database contains entries on approximately 13,100 organizations and is the most comprehensive listing of HIV/AIDS, viral hepatitis, STD, and TB resources and services available throughout the country, and is available to the American public.

DATES: CDC must receive written comments on or before February 3, 2026.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2025-0717 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov. Please note: Submit all comments through the Federal eRulemaking portal

(www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

Resources and Services Database of the National Prevention Information Network (NPIN) (OMB Control No. 0920–0255, Exp. 3/31/2026)—Revision—National Center for HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases, and Tuberculosis

Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC requests approval of a Revision for the Resources and Services Database of the National Prevention Information Network (NPIN) information collection, currently approved under OMB Control No. 0920–0255. The National Center for HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases, and Tuberculosis Prevention (NCHHSTP) has the primary responsibility within the CDC and the U.S. Public Health Service for the prevention and control of HIV infection, viral hepatitis, sexually transmitted diseases (STDs), and tuberculosis (TB), as well as for community-based HIV prevention activities, syphilis, and TB elimination programs. NPIN serves as the U.S. reference, referral, and distribution service for information on HIV/AIDS, viral hepatitis, STDs, and TB, supporting NCHHSTP's mission to link Americans to prevention, education, and care services. NPIN is a critical member of the network of government agencies, community organizations, businesses, health professionals, educators, and human services providers that educate the American public about the grave threat

to public health posed by HIV/AIDS, viral hepatitis, STDs, and TB, and provides services for persons infected with human immunodeficiency virus (HIV).

The NPIN Resources and Services Database contains entries on approximately 13,100 organizations and is the most comprehensive listing of HIV/AIDS, viral hepatitis, STD, and TB resources and services available throughout the country. The American public can also access the NPIN Resources and Services database through the NPIN website. More than 616,557 unique visitors and more than 1,045,160 page views are recorded annually.

To accomplish CDC's goal of continuing efforts to maintain an up-to-date, comprehensive database, NPIN plans each year to add up to 1,200 newly identified organizations and to verify those organizations currently described in the NPIN Resources and Services Database each year. Organizations will be given the option to complete and submit an electronic version of the questionnaire by visiting the NPIN website.

CDEC requests OMB approval for an estimated 1,449 annual burden hours. There are no costs to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Form	Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Initial Questionnaire Telephone Script.	Registered nurses, Social and community service managers, Health educators, and Social and Human service assistants.	1,200	1	7/60	140
Telephone Verification ..	Registered nurses, Social and community service managers, Health educators, and Social and Human service assistants.	11,135	1	6/60	1,113
Email Verification	Registered nurses, Health educators, Social and human service assistants, and Social and community service managers.	1,965	1	6/60	196
Total	1,449

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Energy

Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA) Special Exposure Cohort Petitions to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on July 28, 2025, to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to
