

Authorization

NMFS has determined that the level of taking for this LOA request is consistent with the findings made for the total taking allowable under the incidental take regulations and that the amount of take authorized under the LOA is of no more than small numbers. Accordingly, we have issued an LOA to WesternGeco authorizing the take of marine mammals incidental to its geophysical survey activity, as described above.

Dated: December 4, 2025.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Office of Education Higher Education Scholarship, Fellowship, and Internship Programs**

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 6, 2026.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0568 in the subject line of your comments. All comments received are part of the public record and will generally be posted on <https://www.regulations.gov> without change. Do not submit Confidential Business

Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to John Baek, Senior Education Evaluator, NOAA Office of Education, 1315 East-West Hwy., Silver Spring, MD 20910, 202-743-0332, or John.Baek@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for extension and revision of a current information collection.

The National Oceanic and Atmospheric Administration (NOAA) Office of Education is sponsoring the information collection herein described. The Administrator of NOAA is authorized by section 4002 of the America COMPETES Act, Public Law 110-69, to establish and administer a Graduate Sciences Program and two undergraduate scholarship programs to enhance understanding of ocean, coastal, Great Lakes, and atmospheric science and stewardship by the general public and other coastal stakeholders, including underrepresented groups in ocean and atmospheric science and policy careers. In addition, NOAA's Administrator is authorized by section 214 of the Consolidated Appropriations Act, 2005, Public Law 108-447, to establish and administer the Ernest F. Hollings Undergraduate Scholarship Program to support undergraduate studies in oceanic and atmospheric science, research, technology, and education that support NOAA's mission and programs.

The NOAA Office of Education collects, evaluates, and assesses student data and information for the purpose of selecting successful candidates for scholarships, fellowships and internships, generating internal NOAA reports, and articles to demonstrate the success of its program.

The purpose of the NOAA Educational Partnership Program with Minority Serving Institutions (EPP/MSI) is to educate, train and graduate students in NOAA mission-aligned disciplines to build a pool of candidates eligible for the future NOAA workforce. The EPP/MSI program is strongly committed to broadening the participation of Minority Serving Institutions such as Historically Black Colleges and Universities, Hispanic-Serving Institutions, Indian Tribally Controlled Colleges and Universities, Alaska Native-Serving Institutions, and Native Hawaiian-Serving Institutions. The EPP/MSI program has five program

components: The Undergraduate Scholarship Program (USP); the Cooperative Science Centers (CSCs); Graduate Fellowship Program (GFP); the Graduate Sciences Program (GSP); and the Environmental Entrepreneurship Program (EEP). The GSP and EEP programs are no longer actively supporting students, however alumni of those programs may provide updates to EPP/MSI of educational and career changes.

The NOAA Office of Education requires all applicants to NOAA's Undergraduate Scholarship Programs to complete an application in order to be considered. The application package requires two faculty and/or academic advisors to complete a student scholar reference form in support of the scholarship application. Undergraduate scholarship recipients are required to complete a Student Scholarship Training Record to track their time, attendance, and accomplishments during their internships. Student scholar alumni are also requested to provide information to NOAA for internal tracking purposes. This information informs NOAA whether NOAA-funded students pursue and complete post-graduate NOAA-related science degrees, are employed by NOAA or a NOAA contractor, or in fields related to NOAA's mission.

NOAA EPP/MSI CSC grant award recipients are required to update the student tracker database with the required student information in order to assess compliance with award performance measures. While supported by NOAA scholarship and internship programs, the Office of Education surveys students and mentors to gain feedback on experiences and to assess program impact. Feedback collected from surveys will be used to improve programs to ensure the highest quality experience for supported students.

The collected data supports the Office of Education's program performance measures. To measure the impact of these programs, the data collected are compared to the available data in the national education databases (e.g., National Science Foundation and National Center for Education Statistics) and NOAA workforce management database. Furthermore, the student data collection identifies degree and NOAA mission-aligned discipline pipeline areas, guiding NOAA's effort to recruit for its mission-aligned educational and training programs and future workforce.

This information collection includes several changes to the type and amount of information being collected as described below:

1. Removal of the Hollings Preparation Program Application and Surveys
2. Removal of Student Opportunities Optional Demographic Data Collection

II. Method of Collection

Electronic applications and electronic forms are required from participants, and the primary methods of submission are email and internet transmission of electronic forms. Less than 1% of the application and reference forms may be mailed.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to

be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF DEFENSE

Department of the Air Force

Notice of Record of Decision for the Environmental Impact Statement for Authorizing Changes to the Falcon Launch Program at Vandenberg Space Force Base, California

AGENCY: Department of the Air Force.

ACTION: Notice of Record of Decision.

SUMMARY: On October 10, 2025, the Department of the Air Force (DAF) signed the Record of Decision (ROD) for the Environmental Impact Statement for Authorizing Changes to the Falcon Launch Program at Vandenberg Space Force Base (VSFB), CA.

FOR FURTHER INFORMATION CONTACT: Ms. Hilary Rummel, NEPA Project Manager, by email at hilary.rummel.ctr@us.af.mil or VSFB Public Affairs office by phone at 1–805–606–3595.

SUPPLEMENTARY INFORMATION: The DAF has decided to increase the annual Falcon launch cadence at VSFB through launch and landing operations at SLC–4 and SLC–6, including modification of SLC–6 for Falcon 9 and Falcon Heavy launch vehicles to support future U.S. Government and commercial launch service needs. The overall launch cadence will increase from 50 Falcon 9 launches per year at SLC–4 to up to 100 launches per year for Falcon 9 and Falcon Heavy at both SLCs combined. Falcon Heavy, which has not previously launched from VSFB, would launch and land up to five times per year from and at SLC–6. The DAF will authorize SpaceX to construct a new hangar south of the HIF and north of SLC–6 to
