However, requests for changes to current Explanatory Notes (not arising from potential 2033 legal amendments to the HS) may be sent by a WCO member government directly to the HSC at any time. Government agencies and private sector parties interested in such action should contact the Commission (see contacts above) or the following CBP officials: Yuliya A. Written Submissions: Interested persons and agencies are invited to submit written proposals, which should be addressed to the Secretary to the Commission and received no later than October 1, 2027. Although submissions will be accepted after this date, it is recommended that proposals be submitted as soon as possible to ensure full consideration in the eighth HS review cycle. Submissions should be marked with a reference to Investigation Number 1210–008.

All written submissions must conform with the provisions of section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). business information must also conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). Section 201.6 of the rules requires that the cover of the document and the individual pages be clearly marked as to whether they are the "confidential" or "non-confidential" version, and that the confidential business information be clearly identified by means of brackets.

All written submissions, except for confidential business information, will be made available for inspection by interested parties. Confidential business information received in the proposals may be made available to Customs and Census during the examination of these proposals. By learning the information from the plans of Watch Party organizers, NASA can best provide appropriate resources and share information about its activities and results.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in accordance with the NASA Strategic Plan.
